Chairman's Statement

Dear Shareholder,

The year 2016 has been a volatile and unpredictable year geopolitically which has influenced business sentiment, currency volatility and created an overall uncertainty as we enter 2017.

The first half of 2016 saw an inventory correction after what proved to be over exuberant demand from our customers in the second half of 2015. Optimism that the US growth rates would accelerate exemplified by the first Fed rate hike for nine years in December 2015 was soon dashed in the first quarter of 2016. This reversed the US dollar strength and sent emerging currencies soaring coupled with most of our customers now reversing their optimism with a pullback in orders.

In addition continued exposure to the correction in the touch pad (for laptops) market meant that we struggled to register any growth at our Lamphun PCBA plant in the first half of the year. As the year progressed, we saw a leveling out of the slowdown and we believe 2017 shall see resumed growth.

Despite this difficult environment, our IC business saw a more positive performance driven by a continuing consolidation within the industry as the number of M&A deals continued at a breathless pace. Whilst we have been a beneficiary of this process, it has also come at a cost to margins as the higher volumes we have gained have come with aggressive price pressure. Nonetheless, the investments we have made in our quality systems have certainly paid off and Hana Ayutthaya is rising the ranks of our customer's quality ratings. This has been crucial in helping us win market share during the industry consolidation process.

2016 saw our Hana Cambodia plant enter full service and by the mid-year we had achieved ISO 9000 qualification. We now have just over 100 employees serving two major customers and with a number of opportunities in the pipe-line we are optimistic for the future. That said we recognize the challenges in bringing up this division to world class levels given the lack of experience and knowledge for electronics assembly within this developing nation.

By contrast, I am delighted to report that in Ohio, Hana Microdisplay Technologies had what can only be described as a 'breakout year'. After many years of development and persistence, a number of projects came to successful fruition enabling Hana's smallest division to contribute positively to the group's profitability. The outlook for 2017 also looks very encouraging.

In China we continued to struggle with continued price pressure and rising costs both for our PCBA and IC divisions. Our large

Chairman's Statement

exposure to laptops there also was felt, but by the fourth quarter we began to see stabilization for demand for laptop touchpads and we now believe a more sustainable level of demand is achievable going forward. A weakening RMB has been helpful but continued high levels of labour turnover characterizes the challenges of manufacturing in China.

Our key financial performances were as follows:

- Revenues similar of THB 20,521 million in 2015 and THB 20,523 million in 2016
- Operating income down 9% from THB 2,161 million to THB 1,969 million
- EBITDA income down 5% from THB 3,329 million to THB 3,149 million
- NPAT up 2% from THB 2,066 million to THB 2,105 million
- Cash and financial investments up 9% from THB 9.1 billion to THB 9.9 billion

The surprise results of Brexit and the US elections, have brought about a level of uncertainty that is influencing the near term confidence and whilst we do not believe that our industry will be materially affected, it is clear a more 'wait and see' approach is prevailing from our customers. On the positive side, the expectations of a further tightening in US rates is strengthening the dollar and if this is maintained, it will certainly help offset the expected price erosion going forward.

In summary, 2016 has certainly been a difficult year, in particular the first half. As the year progressed a reduction in excess inventory built up in 2015, a strengthening US dollar and a leveling out of the drop in computer touch pads improved our performances. We continued to see growth for the automotive and smart phone industries and we believe these will be the leading drivers for growth in 2017. RFID demand was also strong as US employment strengthened.

Finally, the time has come for me to step down as your Chairman at the end of 2016. I have enjoyed 14 years serving you and I do believe despite the many challenges faced by the EMS industry, Hana has weathered them all exceptionally well, which is evident in its strong financial situation. There is no question the group is now well positioned to grow both organically and should the right opportunity come, through acquisition. I wish to thank my fellow board members for their unwavering support during my tenure and I am sure they will continue to do so with my successor. To all the staff of the Hana Group, my sincere thanks for your support and I wish you all further success in future.

To all of you, our shareholder's - my sincere gratitude for your confidence and trust in Hana Microelectronics PCL. I leave you with sadness yet satisfaction in what has been achieved during my tenure and I am confident for the Company's continued success.

Mr. Bancha Tamprakorn
Chairman of the Board of Directors

Operation Review

Hana Microelectronics Public Co., Ltd. (Lamphun)

After a record for 2014 and 2015, 2016 was weaker with lower overall sales revenue. However with the weaker THB/USD and our focus on cost control, Hana Lamphun was able to achieve an acceptable result.

Our factory automation projects enabled a reduction in direct labor cost and increase in quality by eliminating human error for those projects. In 2017 we will continue our drive to increase quality through additional automation programs and implementation of automotive process discipline, VDA 6.3. We have also invested in an integrated Product Data Management “PDM” software system which will ease the human effort in handling factory documentation, including documentation for engineering changes, material and process traceability. These developments will help us move closer to the Industry 4.0 requirement for the future. We are also adding more resources and strengthening our operation teams to enable us to move towards the zero-defect goal of our customers.

Our new plant, at the Saha Group Industrial Park, Lamphun “LPN2”, has been in operation since last year and is now utilising 70% of the first floor. The focus of this plant is 50% on semiconductor products and 50% printed circuit board assemblies “PCBA”. We plan to put further new business into this plant, whilst leaving room for expansion of business with existing customers at our main plant “LPN1”.

The business outlook of 2017 is promising as we see higher forecast demand from most customers, and the new products being introduced. We will add newer technology (auto-inspection, auto-selective soldering, and the wafer level probing) which will further increase our capabilities.

I would like to thank all Hana LPN staff for their dedication and hard work during a challenging 2016 and we look forward to resuming our growth in 2017.

Mr. Wing Keung Chow
Vice President and General Manager

Operation Review

Hana Semiconductor (Ayutthaya) Co., Ltd.

Hana Semiconductor (Ayutthaya) “Hana-AYT” had an eventful year in 2016. With our dedicated team and support from our loyal and valued customer base, Hana-AYT had achieved record sales revenue. Our shipment quantity also showed a double digit growth when compared to 2015 and we invested to increase our capacity significantly in 2016 to support our customer growth.

The “Hana-AYT” team continued to believe in our philosophy of “quality as a business enabler” and this helped in winning customer confidence leading to increased business. This belief led to improvements in our internal and external quality metrics, as we continued to perform exceedingly well in customer audits for both commercial and automotive customers.

During 2016, we spent a lot of time and effort in developing new technologies and adding new capabilities. These investments and groundwork will lead to more opportunities in 2017 in both our standard IC packaging and customer specific product lines in addition we continued to work towards protecting our technology edge by filing for intellectual property protection for new developments. During 2016, we successfully registered patent coverage on certain custom packages and processes. This focus will continue in 2017.

The focus on process and IT automation continued and significant investments were made in these areas during the course of the year. This focus is part of our strategic roadmap to provide a world class service and products for our customers.

During 2016, we continued on several activities targeted to develop our people and groom them for more responsibilities and leadership position in the future. This focus on our human assets will continue in 2017 and is a major part of our strategy for growth and sustainability.

We did have some major customer wins in 2016 and we expect these opportunities to turn into full production in 2017. We are optimistic in maintaining the strong momentum on quality, technology, and teamwork which we hope will translate into more market share from new and existing customers.

While continuing to support and expand in commodity IC package assemblies, Hana-AYT will strategically invest and focus on products to service selected segments of market which will provide us with a quantifiable differentiator from our competitors. We strongly believe that this will allow Hana-AYT to become a supplier of choice for our customers.

We once again extend our sincere thanks to our customers for trusting the team at Hana-AYT during 2016.

Finally, I would like to extend my sincere thanks and gratitude to the employees of Hana-AYT. It is due to their dedication, loyalty, trust and teamwork that we have been able to achieve so much in 2016, and with our teams’ “can do” attitude, I very much believe that 2017 will be another year of growth for Hana-AYT.

Mr. Sanjay Mitra
Vice President and General Manager

Operation Review

Hana Microelectronics (Jiaxing) Co., Ltd.

2016 turned out to be another difficult year for Hana Jiaying with lower sales than 2015. Except for a few customers, we saw continued weak demand from majority of our top 10 customers. Although it was very challenging when the business was down quite substantially, Hana Jiaying managed to remain profitable for both Printed Circuit Board Assembly “PCBA” and Integrated Circuit “IC” packaging business. The team stayed focused on achieving better Value Added ratios through improvement of labor efficiency and product yield, eliminating waste and headcount reductions. The weakening RMB also helped support the profitability to a certain extent.

To prepare for the future growth of Hana Jiaying, in 2016, we invested to add new capabilities such as Wafer Level Chip Scale Packaging “WLCSP” IC assembly technology, Insulated-Gate Bipolar Transistor “IGBT” module assembly for power products and Bluetooth Low Energy “BLE” test system for consumer products, which enabled us to pursue business opportunities from the market segments that were new to us. We restructured our Technology Department to focus more on New Product Introduction “NPI”, and Designed For Manufacturing “DFM” services. We also hired expertise to enhance the organizations technical offering towards the goal of having our own mechanical parts design capability to support the needs of our key existing accounts and potential new customers.

2017 is expected to remain challenging but I am confident that we will meet our operational goals and plans set for the year. Encouragingly we have seen some new opportunities from both new and existing customers. The automotive LED project was previously delayed due to the technical complications, but finally volume production was started at the end of 2016.

I would like to take this opportunity to thank all our employees in Hana Jiaying for their dedication and hard work in 2016. Together we will work even harder in 2017, striving for a better year.

Mr. Steven Lee
Vice President and General Manager

Operation Review

Hana Microdisplay Technologies, Inc.

Hana Microdisplay Technologies “HMT” experienced significant growth in 2016. After a fast start in the first quarter, HMT continued its momentum growing each quarter thereafter. All of HMT’s largest customers grew, with nearly equal growth in each of HMT’s 3 largest market segments: consumer electronics, telecom, and Radio-Frequency Identification (RFID).

Microdisplay growth came from Liquid Crystal (LC) based telecommunication devices and camera modules. Simple passive optical switches and Near-eye devices remained small in 2016, as it has been for the past few years. Near-eye devices for virtual and augmented reality goggles remains a market for potential growth, but as yet has not experienced a significant change. HMT expects to see growth in 2017 coming from near-eye products and small projection systems. HMT expects to see continued growth in camera modules and other consumer electronics products in 2017, but a leveling off in the telecommunication devices market.

HMT’s RFID manufacturing continued to grow in 2016. Capacity that was added late in 2015 was fully available in 2016, resulting in a doubling of revenue. HMT has plans to potentially add more capacity as its customers’ demands continue to grow. HMT’s RFID tire tag business took another major step forward. After doubling in each of the previous years, it grew nearly 500% in 2016. More growth is expected in 2017, but after servicing its main customers, HMT expects only incremental growth this coming year.

HMT expects to build on its break-out performance in 2016 with new opportunities for improved operational execution as well as increased sales. HMT increased its manufacturing partnerships with its sister company in Lamphun four fold. Activity with Ayutthaya remained flat, and HMT is nearly qualified on a new project with JiaXing.

HMT is thankful for positive and fruitful partnerships with its customers in 2016, and hopes to support them well again in 2017.

Dr. John Erdmann
President and Chief Executive Officer

Operation Review

Hana Microelectronics (Cambodia) Co., Ltd.

By the end of 2015 Hana Microelectronics (Cambodia) Co., Ltd. "Hana Cambodia" had completed construction on its 13,000 sq/m facility in the region of Koh Kong. This new factory became a strategic manufacturing location for the Hana Microelectronics Group in answer to the problems of rising of labor costs and limited work force in many Asian countries. The factory will be another option for both existing and new Hana customers and will provide Hana with an opportunity to assemble labor intensive and final box build assembly products. Cambodia also has special tariff privileges such as Generalized System of Preferences "GSP" for European market and Trade Agreement Act "TAA" for the US market, with 0% Import duty, reduced Import Duty or special quotas which we can take advantage of to win business and help our customers to become more competitive.

Our startup has been challenging with the need to build up from scratch in a country with virtually zero experience in electronics manufacturing. Nonetheless we were able to win business and assembled products for Secure Reader Box Build: RFID (Radio-Frequency Devices) Readers and Smart Card Readers, Cable Harness for Secure Reader Box Build, Telecommunication Devices, Computer Components, Pre-Assembly: Semi-Electronic and watch movement components.

To prepare for future growth and be able to pursue business opportunities for Hana Cambodia we were able to achieve the quality standard certificate for ISO 9001:2008 by CISQ. Also, our USB cable harness assembly has been certified by UL Standards for safety.

2017 will still be a challenging year for Hana Cambodia. We will continue to focus on quality systems and human development. We will run an internship program, buddy program as well as offer scholarship opportunities for engineers and technicians from local Universities and Technical Institutions. Also, we will continue to expand our business with joint development and support from other Hana factories as well.

I would like to thank you all of our employees at Hana Cambodia and all support teams from other Hana divisions for their support, dedication and commitment during our maiden year of 2016. Teamwork is a key to success and everyone is working toward the same common goals that will help each other to increase our market share and revenue.

Hana Overview and Nature of Business

Hana Overview

Hana Group is one of South East Asia's leading independent "Electronics Manufacturing Service" (EMS) producers. The Company's headquarters is located in Bangkok and there are 6 manufacturing facilities, which are located in Lamphun and Ayutthaya provinces in Thailand, Jiaxing in China, Ohio in U.S.A. and a new manufacturing facility in Koh Kong, Cambodia.

Hana Microelectronics Public Co., Ltd. is the parent company. Initially, the Company was established under the name of Hana Microelectronics Co., Ltd. on 28 February 1978 and then was registered to be a public company limited on 26 July 1993 and the name changed to Hana Microelectronics Public Company Limited.

Vision, Mission and Corporate Objectives

In 2016, the Board of Directors reviewed and approved the Company's vision, mission and corporate objectives or the long term goals as below.

Vision

To become the electronic manufacturing services' company of choice, by providing world class quality manufacturing through a diverse field or related disciplines.

Mission

To create long-term shareholder value in a manner which minimizes fluctuations in earnings; to develop and promote our employees' wellbeing; to create strong customer-satisfaction and to be a good corporate citizen maintaining high corporate, environmental and social practices for the benefit of all stakeholders.

Corporate objectives/Long term goals

1. Develop and foster our human resources base for continuous expansion and in order to meet the ever changing demands of the market and for their own personal career paths
2. Build strong and long relationships with our core customers to foster continuous growth
3. Understand our customers' demands and endeavor to meet them
4. Continuous to diversity our customer base, geographic and industry exposure in order to cope with fluctuations in economic cycles
5. Create and grow shareholder value through the distribution of profits and increasing returns
6. Maintain integrity through business ethics in dealings with all stakeholders

Hana Overview and Nature of Business

Major changes and development of the Company

Major changes and development of the Company and subsidiaries in the past 3 years are as follows.

- 2014**
 - The Company registered the changing of its headquarters from the address no. 10/4 Moo 3, Vibhavadi-Rangsit Road, Kwang Talad Bangkhen, Khet Laksi, Bangkok due to the land lease expired, to be 65/98, Soi Vibhavadi-Rangsit 64 Junction 2, Kwang Talad Bankhen, Khet Laksi, Bangkok. The new office is located on the Company's own land.
 - The insurance claims for business interruption due to the floods of Hana Semiconductor (Ayutthaya) Co., Ltd. had been settled for a total of THB 1,750 million, bringing the total insurance claims both property damage and business interruption totaling THB 2,992 million.

- 2015**
 - Hana Microelectronics Public Co., Ltd., Sahaphat Group Industrial Park branch, Lamphun province started the operation in January and this is the second manufacturing base in Lamphun. The main products are for assembling Semiconductors and Printed Circuit Board Assembly.
 - Hana Microelectronics (Cambodia) Co., Ltd. is located at Koh Kong Special Economic Zone, Koh Kong Province started the operation in September, initially assembling RFID access control readers and Printed Circuit Board Assembly.

- 2016**
 - Hana Microelectronics Public Co., Ltd., Sahaphat Group Industrial Park branch purchased the additional land located next to the existing factory totally 24 rai amounting to THB 72.3 million for future business expansion.

HMT: Hana Microdisplay Technologies Inc.

HMC: Hana Microelectronics (Cambodia) Co., Ltd.

Hana Overview and Nature of Business

Hana Product Group

1. Printed Circuit Board Assembly (PCBA)

Printed Circuit Board Assembly is IC and other electronics part assembling on printed circuit board which holding electronics part on board by SMD (Surface Mount Device) technology. PCBA products are manufacturing in Lamphun and Jiaxing plants. The Company also provides manufacturing services for other products such as COB (Chip-on-Board) Assembly, Wireless Radio Frequency Product and other electronics device (Air Pressure and Temperature Control product, Fiber Optic Device, Wireless Sensor Product, Smart Card Product, etc.). In Cambodia plant, the Company assembles box build products and other labour intensive assemblies.

2. IC Assembly and Test

Hana provides IC assembly and test operations with the production bases in Ayutthaya plant in Thailand and Jiaxing plant in China. The Company offers variety of IC assembly and test services such as Standard IC products (QFN/DFN package, LGA, MSOP package, SC, SOT, TSOT and TO263T package, etc.), LEDs for Automotive Lighting, Optical Mouse, DC-DC Converter Assembly, Fiber Optic Assembly, Products for High Concentrated Photovoltaic, etc.

3. Microdisplay

Hana Microdisplay Technology Inc. produces Liquid Crystal on Silicon "LCOS" devices which are be used for microdisplays and optical telecommunications components. The plant also produces RFID (Radio Frequency Identification - RFID) passive tags. The products are developed and initially manufactured by the plant in Twinsburg, Ohio, U.S.A. Manufacturing of these devices is also performed in Ayutthaya plant, where a duplicate production line was established in 2004.

Product distribution and raw material

Hana manufactures the products according to the customers' specification and requirement and sells the products directly to the customers. The major raw materials are from direct purchase from suppliers and consignment from customers. The Company imports the major raw materials used in production by import directly, through distributors overseas or through their trading company for local purchase. The Company has not individual purchased raw materials from one supplier valued at more than 30 percent of the total purchase of raw materials. The Company has the planning system to purchase materials in advance of the planned production to match customer orders.

Some materials are based on world prices market such as gold, copper, steel prices which may fluctuate. The Company has managed various ways to cope with the price fluctuation such as find the second source of substitute raw material, advanced planning for material ordering or discussing with the suppliers and customers.

Hana Overview and Nature of Business

Production capacity

The production capacity in 2016 is as follows.

(Unit : Pieces/Year)

Manufacturing Plants	2016		2015		2014 (Restated)	
	Production Capacity	Actual Production	Production Capacity	Actual Production	Production Capacity	Actual Production
A) IC						
• Ayutthaya plant	4,376,000,000	4,003,614,600	3,906,520,000	3,438,296,000	3,749,000,000	3,249,000,000
• Jiaxing plant	1,772,000,000	1,273,285,348	1,798,000,000	1,375,999,109	1,733,000,000	1,546,000,000
B) PCBA						
• Lamphun plant	1,000,000,000	800,000,000	900,000,000	720,000,000	824,000,000	669,156,000
• Jiaxing plant	91,000,000	63,521,559	107,000,000	88,311,516	117,000,000	100,000,000
• Cambodia plant	4,380,000	3,747,995	200,000	200,000	N/A	N/A
C) MICRODISPLAY						
• U.S.A. plant	70,800,000	67,575,000	70,550,000	35,895,000	50,310,000	31,680,000

Industry Competitive Condition

In 2016 the markets were similar to 2015. Sales in USD terms decreased about 3%, but the weaker THB/USD exchange rate enabled sales in THB equivalent to be similar to 2015. Operating margins were reduced due to more competitive pricing in the Company's markets.

The Company remains competitive by providing assemblies to the quality level demanded by the customers at a competitive cost. The management believes that company maintains a competitive cost structure equal or lower than the majority of its competitors.

To compete with our competitors:

1. Hana (Thailand) position is towards higher technology and better infrastructure than those in the more labour intensive countries, such as China, India, and Vietnam. Even with the recent wage increase, Thailand still competitive. With the recent high cost situation in China, business is re-flowing back into Thailand, which leads Thailand to be better competitive with our neighboring countries for more complex assemblies.
2. Hana (China) also provides a competitive geographic location but with more corporate technical and administrative support to distinguish them from local competitors.
3. Furthermore, Hana has established a manufacturing plant in Cambodia, to take advantage of the lower labor cost there.
4. Hana provides a wide range of products and processes in various locations to distinguish itself from other competitors who also have multiple factory sites but a smaller product range.
5. Even with the recent fluctuations in the worldwide economy, Hana has maintained a strong cash flow.
6. Hana has multiple sites which provide alternative production facilities in case any one site has difficulty.

Hana Overview and Nature of Business

Future Projects in Plan

In 2016 the Company invested in another piece of land, 38,000 square meters, adjacent to our existing LPN 2 plant, which is to prepare for future expansion.

Management Structure

Duties and responsibilities of the corporate secretary are as follows:

1. To prepare and maintain following documents.
 - 1.1 Director registration
 - 1.2 Notification and minutes of the Board of Directors meetings including annual reports
 - 1.3 Notification and minutes of shareholder meetings
2. To maintain Report on Interest of Directors, Executives and Related Persons and send a copy of the report under Section 89/14 of SEC regulation to the Chairman of the Board and Audit Committee within 7 days from the date that the report is received.
3. Other duties regulated by the Securities and Exchange Commission
4. Other duties assigned by the Board of Directors such as
 - Advice on the laws and regulations involved and oversee the activities of the Board to be in accordance with the law
 - Conduct the Board of Directors and shareholders meetings
 - Liaise with regulatory agencies such as the SET and ensure disclosure and press release according to the applicable laws

Remuneration of the Board of Directors and Executives

Remuneration for Directors:

The Company provides the remuneration to the independent directors while the executive directors receive the remuneration as the role of employees of the Company. Therefore, the Company has not established the Remuneration Committee as the Board considers and reviews the remuneration of the independent directors by the whole Board. The Company provides the remuneration to the independent directors in forms of meeting allowances and bonus of which the rates are up to the responsibilities of the members. There is no other benefit. The remuneration for directors has been compared with the rate of the same industry and the structure of the remuneration of the Company. All types of the remuneration of directors have always been approved by shareholders every year.

Management Structure

Individual disclosure of remuneration for the Board of Directors in 2016 is as follows.

Name	Position	Meeting Allowance (Baht)	Bonus (Baht)	Total (Baht)
1. Mr. Bancha Tamprakorn	Independent Director Chairman of Board of Directors Chairman of Audit Committee	736,000	92,000	828,000
2. Mrs. Salakchitt Preedaporn	Independent Director Audit Committee Corporate Governance Committee Nomination Committee	412,500	55,000	467,500
3. Mr. Yingsak Jenratha	Independent Director Audit Committee Chairman of Nomination Committee Corporate Governance Committee	412,500	55,000	467,500
4. Mr. Richard David Han	Executive Director Nomination Committee	-	-	-
5. Mr. Winson Moong Chu Hui	Executive Director	-	-	-
6. Mr. Terrence Philip Weir	Executive Director Chairman of Corporate Governance Committee Chairman of Risk Management Committee	-	-	-
Total				1,763,000

Remuneration for Executives:

Basis of key executive remuneration – The Company is to ensure that key executive remuneration enhance its ability to attract, retain and motivate competent and experience staff. Remuneration of executives of short and long terms is in accordance with performance of each executive. The remuneration of executives including CEO comprises of base salary, cash bonuses (Annual and Personal Performance Bonuses) and employees' welfare such as provident funds, medical benefits, life insurance, etc. The provident fund is a part of the incentive programs to offer executives, management and employees a secure income in the case of death, disability, resignation or retirement. The Company contributes at the rate of 3 - 7.5 percent of their salaries depending on the length of year service with the Company. Other long term incentive program is the retirement benefit which is eligible to receive when retires from the Company.

The Board of Directors has established the written CEO remuneration policy that covers the short-term and long terms incentives. The Board delegates the CEO compensation process to the executive committee within the budget approved by the Board annually. The short-term incentive depends on the group's financial performance and on CEO's own success evaluated by the independent directors. For the long-term incentives, the CEO shall be eligible to receive this long term incentive with the same terms and conditions as employees. For other long term incentives of CEO if any, the executive committee shall seek recommendation from the Board.

Measurement criteria - The performance-based has been recognized for the legitimate difference in roles, individual contribution, complexity and responsibility of the position they hold, including the performance of the Company. The determination of remuneration also takes into account the current market rate and annual salary increase of the staff with consideration of the market survey performed by Human Resources Department.

Management Structure

In 2016, the total remuneration of 5 executive managements is as follows.

Type of remuneration	Amount (Baht)
Salary	17,866,205
Bonus	5,368,600
Provident fund	889,017
Board remuneration	-
Total	24,123,822

Human Resources

As of 31 December 2016, the Company and its subsidiaries had a total number of employees of 10,478. For 2016, the total remuneration including salary, overtimes, bonus, provident funds, etc. was Baht 3,656 million. In Thailand, there were 7,998 employees with Baht 2,538 million paid for remuneration.

Number of employees and remuneration in Thailand:

Y2016	Hana Microelectronics Public Co., Ltd.	Hana Semiconductor (Ayutthaya) Co., Ltd.
Production	3,101 employees	3,085 employees
Administration and others	937 employees	875 employees
Total employees	4,038 employees	3,960 employees
Total remuneration	THB 1,224 million	THB 1,314 million

The long-term success of a company is largely determined by the support we earn from our employees, customers, business partners, investors, local community and other stakeholders. Hana believes that good corporate governance will enhance the credibility and reputation of the Company as well as promoting and safeguarding the interests of shareholders and other stakeholders. Hana is committed to good corporate governance by compliance with the best practices of corporate governance wherever possible and practical for the Company. The corporate governance policy, which is published on the Company's website, provides the guidelines under which the Board of Directors operates. We will continue to seek improvements to our solid foundation in good corporate governance to achieve sustainable long-term growth.

A compliance program is an important element in the corporate governance. In 2016, Hana has adhered to and complied with the good corporate governance for a listed company as recommended by the Stock of Exchange of Thailand in 5 principles.

1. Rights of Shareholders

Hana recognizes the importance of shareholders' rights and treats all shareholders either individual investors or institutional investors equitably, fairly and in line with relevant laws where no actions shall be taken to materially diminish shareholders' rights.

- **Rights to attend the shareholders' meeting and vote**

One of the basic rights of shareholders is the right to attend and vote at shareholders' meetings. To encourage shareholders to exercise their rights in shareholders' meeting, the Company takes following actions.

Before the meeting day:

The Company sets the date, time and place of the meeting by taking into consideration the convenience of shareholders in attending and encouraging shareholders, including institutional investors, to attend the meeting. The Company holds the Annual General Meeting of Shareholders (AGM) within 4 months after financial year ends. In 2016, the Company held the AGM on 29 April 2016 at 14:00 hrs. at its company head office located at 65/98 Soi

Corporate Governance

Vibhavadi-Rangsit 64, Junction 2, Kwang Talad Bangkhen, Khet Laksi, Bangkok making it convenient for shareholders including institutional investors to travel and attend the meeting. The Company arranged with the Thailand Securities Depository Co., Ltd. or “TSD” which is the Company’s securities deposit registrar send the notice of shareholders’ meeting by posted mail 21 days prior to the meeting date in order to provide sufficient time for shareholders and institutional investors to review the details of information disclosed in the notice of meeting. The notice of meeting expressly indicated the matters to be tabled at the meeting, whether for acknowledgement, approval or consideration, including the Board’s opinion on each agenda. Other supporting information and documents were also attached to the notice. In addition to the direct delivery, the notice of meeting was made available to the shareholders through the Company’s website (www.hanagroup.com) 30 days in advance and the notice of meeting was published through SET’s information system or “ELCID” in both Thai and English versions, which were the same as the original notice mailed to shareholders.

The Company also provides opportunities for shareholders to submit questions or enquiries in advance prior to the meeting with the procedures enclosed in the notice of meeting and available in the Company’s website. Further, the Company encourages the exercising of voting rights by shareholders who cannot attend the shareholders’ meeting by appointing their proxies to participate in the meeting or appoint the Company’s independent directors on their behalf to attend the meeting and vote by providing the proxy form B on which shareholders are able to specify their votes, with the notice of meeting.

On the meeting day:

The Board of Directors is to ensure that the meeting is conducted transparently and efficiently as well as to facilitate the exercise of shareholders’ rights. The quorum including the total number of shareholders in attendance in person or by proxies, voting procedures and voting count method are clearly advised to the meeting prior to the discussion of the agenda items. The meeting chairman shall convene the meeting according to the terms and conditions in line with the Company’s Articles of Association and manage appropriate time for each agenda set forth in the meeting invitation. During the meeting, shareholders are given the opportunities to raise questions, recommendations as well as provide their opinions on the Company’s performance or other concerns on an equitable basis. In regards to the AGM conducted in 2016, 6 out of 6 directors (100%) attended the meeting which included the chairman of the Board, the chairman of all sub-committees, Chief Executive Officer, Chief Operating Officer and Chief Financial Officer. The external auditor also attended the meeting with the directors so that they could listen to shareholders’ opinions or suggestions and also answer any questions.

The Board has adopted the technology in using the barcode system for registration and vote counting in order to bring more accuracy and the results of voting can be announced in a timely manner. Each matter of the agenda is required the use of barcode voting card so that shareholders are able to vote as they deem appropriate. Ballots are collected in the event of an objection or abstention and kept for further evidence and verification. In addition, the Company arranges the inspector who was an independent person to count and check the votes in the meeting and clearly inform the voting results as agree, disagree and abstain.

After the meeting day:

The meeting minutes recording the course of the meeting, the list of directors and executives attending the meeting, voting procedures, vote counting methods, the agenda discussed, the results of shareholder voting counts on each agenda and the decisions made by the meeting with the number of votes of shareholders casting affirming, opposing and abstaining votes including shareholders’ questions and answers are made available within the appropriate time to shareholders. The minutes of the AGM in 2016 were posted to the Company’s website within the following

business day after the meeting and at the same time sent to the Stock Exchange of Thailand. If shareholders have any inquiries or comments on the minutes, they can contact to the corporate secretary. The minutes are maintained at the Company's head office.

- **Rights beyond voting right**

The Company has provided shareholders beyond voting right as follows.

- The rights to be counted as a shareholder, for example, a right to buy, sell, transfer shares or a right to inspect shareholder records, etc.;
- The right to receive full and fair returns without inequitable treatment from any group of shareholders.;
- The right to access the Company's information such as the quarterly financial results, the minutes of shareholder meeting, the right to request the Company's visit, etc.;
- The right to participate in decision-making for material matters such as the appointment or dismissal of the Company's directors and approval of their remuneration, appointment of auditors and approval of their remuneration, etc.;
- The right to inspect the management of the Board of Directors, who are representatives of shareholders, such as to inspect the Company's books and records through the Company's public filings including annual report, 56-1 report, etc.;
- The right to obtain a redress or a rectification for any violations of their rights.

In 2016, the Company had no actions that violated the right of shareholders, such as not changing or adding agenda items without notifying shareholders in advance or which limit the access to the Company's information that is released to public. In addition, the Company did not prevent or obstruct any opportunities for shareholders to communicate with each other.

2. Equitable Treatment of Shareholders

Hana pays special attention to the interest of the Company's owners - the shareholders. Equitable treatment is given with fairness to all categories of shareholders as follows.

Treat all class equally:

The Company ensures fair treatment of shareholders irrespective of the size of each of their share holdings. Foreign shareholders and owners of small stakes (minority shareholders) as well as individual investors or institutional investors are treated equally. All of shareholders, in respect of each class of shares, are entitled to the same dividend payments, and have equal rights in the event of share capital increases. The Company's shareholder meetings are open to all shareholders, and all shares of the same class have the same voting rights. Voting at the shareholder meeting is done by the principle of one share, one vote.

Protect minority shareholders' rights:

The Company has the policies to promote the right of minority shareholders by allowing minority shareholders to propose agenda items and nominate candidates to be elected as the directors in advance at the AGM. For 2016 AGM, shareholders could, during the period from October – December 2015, submit proposals for 2016 annual shareholder meeting to the Board of Directors for consideration. The procedures and criteria to propose agenda items and nominate the directors to the Board of Directors have been posted to the Company's website under section "Investor Relation" title "Corporate Governance." However, in 2016 there were no shareholder proposals sent to the Board of Directors for consideration.

Corporate Governance

The matters discussed in the AGM and voting were in sequence as given in the invitation letter without changing important information or adding agenda items without notifying shareholders in advance so shareholders had the opportunity to adequately study the information before making the decision. Further, the Board of Directors allowed shareholders to elect each director eligible for election on individual basis.

Prevent insider trading:

The Company has the policy to prevent directors and executives from taking advantage of inside information, from dishonest dealing for themselves and their related parties. Insider trading is prohibited. Hana has established a system to prevent the use of inside information for personal benefits as follows.

- Communicate the compliance of the policy of Business Code of Conduct of the Board of Directors, executives and employees. The directors and executives are required to sign on acknowledgement of the policy on an annual basis.
- Inform the Board and executives by a circular letter that those who may gain inside information shall avoid trading the Company's securities for the period of one month before the Company announces its financial statements to the public and at least 24 hours after the information is widely spread out to the public.
- Inform the Board and executives for the duties to report the Company security' holdings and movements to the Securities Exchange Commission (SEC) under the Securities and Exchange Act B.E. 2535 and the Stock Exchange of Thailand's regulation.
- Require the Board and executives to inform to the Board or the corporate secretary at least 1 day in advance before actual trading of the Company's security.
- Confirm the shareholding status with individual director and executive through the corporate secretary on a monthly basis.
- Report to the Board for the shareholding status of individual director and executive at every Board's meeting.

In 2016, no director or executive traded the Company's shares by using inside information.

3. Roles of Stakeholders

Hana recognizes the rights of stakeholders starting from employees, customers, partners, shareholders, competitors, creditors, communities, society and the environment including government agencies and related organizations. The Board believes that taking into account the concerns and interests of stakeholders according to the legal and regulatory requirements and the respect of the legitimate expectations of all the stakeholders should benefit all parties in the long run. We have the guidelines to encourage active participation between the Company and stakeholders as follows.

Employees

Employees as the internal stakeholders who are those within an organization play an important role in contributing to the long-term success and performance of the corporation. Our key focus is to retain deserving and talented employees while employees' satisfaction is of utmost importance for them to remain happy and also deliver their level best.

Health and safety in the workplace: The combined efforts of the Company and employees are required to improve the health and wellbeing of employees at work. Hana has been certified for the Occupational Health and Safety Management Systems in accordance with OHSAS/TIS 18001. The Company's policy is to provide the safe and proper workplace to protect injury and illness from work. In order to eliminate or reduce health, safety and welfare related risks to our employees, various health and safety management programs have been implemented such as health and safety risk management system including audit, safety activities and safety incentive program to promote health and safety awareness. Employees

Corporate Governance

take part in work environment management, e.g. by reporting hazards, incidents, illness and suggesting measures to be taken.

In 2016, the Company also provided health and safety training for newly hired and existing employees, including our partners and subcontractors, to ensure full awareness occupational hazards, to encourage and promote safety in the workplace.

The accident statistic report is posted on the bulletin board by detailing the target and accident statistics and being updated every day. In 2016, there were 3 cases of accident but no accident death. When an accident occurs, a report describing the circumstances is submitted, and steps are taken to identify the cause and implement necessary improvements.

Accident case	2016	2015	2014
Small accident or employees stop working less than 3 days (case)	3	9	7
Accident that employees stop working more than 3 days (case)	0	1	0
Total	3	10	7

Employee remuneration: Compensation paid to employees is complied with all applicable wage laws, including those relating to minimum wages, overtime payment, and legally mandated benefits. The Company has provided the long-term welfare benefits that retain and motivate employees, particularly for the retirement benefits and the provident fund to help employees to save a portion of their salary in the event of retirement, disability, sickness or unemployment. The Company's provident fund is an alternative saving scheme for retirement where employees contribute a portion of their salaries and the Company makes the contribution equal to the rate of the employee's savings. Employees will benefit from the savings provided by the provident fund management in the form of investment. In summary, the Company has provided various welfare programs for employees to provide them with better life, to make them happy and satisfied, to keep the moral and motivation of employees high, and to raise their standard of living so as to retain our employees for longer duration.

Corporate Governance

Corporate Governance

In addition, the Company provides the compensation to employees in line with their performance in both the short term such as bonuses and the long term performance through Career Path Development Program which has been continuously provided to employees in order to define the development of skill sets and identify how individuals move through the organization. The career path/development process has considerable benefits from both an individual employee and an overall organizational perspective. The Company has set the policy and the committees to assess potential candidates, identify the core competencies and perform assessment to verify candidates' abilities and determine strengths and weaknesses to match with currently holding position and the readiness for advancement of each candidate, and plan for training and other development tools.

Employee training and development - Hana believes in the value and potential development of every employee. To attract and retain employees, the Company provides training for all levels of employees in a systematic approach in order to develop their knowledge and necessary skills to perform their tasks at the best of their abilities, including improve their attitudes continuously. To enhance career opportunities for employees, the Company has promoted and developed internal trainers on areas of their expertise along with the arrangement of external courses and the use of professional external trainers. In 2016, there were 57 in-house trainers so the Company could benefit from employees' engagement and sharing of knowledge within the organization. Our training program and development enhance employees' performance and their job satisfaction as well as increase their moral. From the Company's perspective, having well-trained employees is key to the Company's success.

In 2016, the Company provided trainings to employees totally 171,299 hours, for daily employees 106,975 hours and for monthly employees 64,324 hours. Therefore, the average training per person per year for monthly and daily employees versus the KPI in 2016 compared with the previous year are as follows.

Corporate Governance

Corporate Governance

Career development – People development and career path planning is one of the strategies to retain employees and minimize employees’ turnover. Hana Ayutthaya has initiated a career path development program by collaborating with the Office of Non-Formal and Informal Education (NCER) to open the technician classroom for interested and potential employees with the vocational certificate degree in electronic field. The Company supports the facilities and equipment needed while studying takes place during working hours. The target group is the daily employees who want to study a skilled technician. After graduated, their career paths with the job promotion and salary adjustment will be considered in accordance with the conditions met with the Company’s criteria. Hana Institute of Technology at Ayutthaya provides our employees with interesting and challenging learning opportunities for career enhancement while the organization benefits from developing improved employee capabilities for the near term and the need to help employees maintain optimism and sustain motivation.

Employees’ satisfaction survey – Hana realize the importance of employees’ satisfaction. The Company conducts the employee satisfaction surveys for both daily and monthly employees twice a year to encourage them to provide comments and suggestions as to improve the organization in various areas covering wages and welfare, work environment, job assignment, career advancement, supervisor, colleague, etc.

Employee satisfaction survey vs. KPI of year 2016 compared with the previous years:

Human rights - The Company believes that respect of human rights is an important part of being a good corporate citizenship. The Company has upheld human rights in every activity we do and we do not tolerate such discrimination of others. There will be no child labour or abusive hiring. Our Human Resource representatives provide advice and counsel to employees and managers to address issues involving human and labour rights. The Company also has established a Welfare Committee as an internal channel of communication to develop a consensus between employees and the company. In 2016, the Company has no claim or report of human right violations from employees, business partners, or local communities.

Corporate Governance

Customers

Hana places the highest value on our customers. The Company aims to meet or exceed our customers' expectation for product quality, delivery, reliability, and competitive prices. Hana has been accredited to Quality Management System (QMS) with the aim to deliver high quality products on time. Our policy is to strive for the customer satisfaction, zero defects, and meeting the international standard requirements. Nearly twenty-year of ISO 9001 certification demonstrates our commitment towards quality, continuous improvement, and sustainment.

The Company and its subsidiaries continue to support the supply chain management particularly for the customers so that we could coordinate such business activities and processes to minimize their total costs and maximize their effectiveness in the marketplace including problems' solving solutions of their complaints or recommendations. Our customer satisfaction surveys conducted yearly help the Company to get actionable customer feedback and to focus on the importance of fulfilling and exceeding customer expectations. As such, in 2016 the Company and our subsidiaries received various awards from our key customers such as "Supplier Excellent Award", "Excellent in Service and Support", "Supplier of the Year", "Excellent Collaboration Award on ensuring best quality with continuous improvements".

Intellectual property - Hana has the policy on the intellectual property and copyrights in order to safeguard the tangible and intellectual property of those with whom we do business, which may be used in fulfilling work assignments, and we will comply with all regulations or contractual requirements governing the use of such property. Any reward and copyrights received from the assignment/work given by the Company or any byproduct assignment/work that originated or result from training/tutoring by the Company shall belong to the Company. Directors, management and employees shall use computer and information technology related work according to Computer-Related Crime Act and other local intellectual property and copyright laws. All employees are required to sign for acknowledgement of the agreement of compliance with intellectual property and copyrights and related laws.

Business partners

Hana promotes fair and open competition and aims at developing and securing long term relationship with suppliers and contractors. Material, product and service purchases will be considered for the quality of materials, products and services in accordance with the respective product requirements. The Board of Directors, management and employees are expected to exercise diligence in their duties with all business partners.

Procurement of goods and services shall be conducted in a manner of the highest ethical standards, which assure a quality end product, as well as the continued confidence of customers, suppliers, and the public. The hire of services or the purchase of goods will be based solely upon price, quality, service, and delivery. Procurement actions will be based on the following principles:

Corporate Governance

- Impartial selection of capable and responsible suppliers and contractors
- Maximum use of competition
- Compliance with laws, relevant regulations and contractual obligations
- Adopting of an effective monitoring system and management controls to detect and prevent bribery, fraud or other mal-practices in the processes of procurement and tendering

All directors and employees will not be influenced by gifts or favors of any kind from our suppliers or other business partners. They shall not accept or give any gratuity or gift offered or rendered to business partners as a kickback for business influence. All employees must conform to existing policy regarding gift and hospitality and anti-corruption policies and procedures.

In 2016, there was no dispute or lawsuit between the Company and suppliers or any business partners.

In today dynamic supply chain, Supplier Relationship Management is an important factor in business growth. One of the key to Hana success is the strong support and contribution from our suppliers. In 2016, Hana Ayutthaya held Supplier Appreciation Day to express our appreciation and gave outstanding awards to our key suppliers who have been crucial to our success over the years. This serves as our way of valuing our relationship as we journey together in partnership now and in the years to come.

Corporate Governance

Shareholders

The Company attempts to achieve growth in earnings for shareholders over the long term. The Board members and executive management shall be qualified for their positions and have a clear understanding of their roles in corporate governance and exercise sound business judgment in the best interest of the Company and shareholders including the preparation and disclosure of financial and non-financial information accurately, completely and timely and devote the time and ability to perform their duties. Our treatment toward shareholders shall comply with the good corporate governance principles for the right and equitable treatment of all shareholders. The disclosures shall be made on a consistent basis, completely and truthfully in regards to the status of the Company, its operating results, financial standing, accounts and other reports. There shall be no disclosure of inside information to individuals associated with the management or directors, which caused damage to the shareholders as a whole. The Company has followed the best practices in conducting the annual general meeting of shareholders. In 2016, Hana was rated “excellent” in the assessment of the AGM by SEC and the Thai Investors Association. The Company also received “2016 Investor’s Choice” award with a full score rating in AGM assessment of the listed companies for 5th year consecutively from year 2012 to 2016. This award reflects particularly the importance of information disclosure and shareholder equality.

Business competitors

The Board focuses on running its business with open and fairness and have a practical guidance for the competitors such as fair competition, not involved in the competition by the dumping, persecution or deprivation influence in order to avoid competition, not take any action that violates the intellectual property or copyright of competitors, not use dishonest methods to discredit a competitor or no trade secret violations. In 2016, there was no dispute or lawsuit between the Company and any competitors.

Creditors

The Company treats creditors responsibly with honesty and fairness to obtain a fair return to both parties and comply with the agreement including the terms of guarantee and managing cash flow to be able to pay to the creditors according to the terms and conditions. The Company will notify the creditor status in the event of payment default and to comply with the Consumer Protection Law and other related laws. In case that the Company cannot comply with the agreed terms, the Company shall notify the creditors in advance to jointly find solutions. In 2016, there was no dispute or lawsuit between the Company and any creditors.

Communities, society and environment

Hana has been certified by the International Standard for Environmental Management Systems or ISO 14001 which provides practical tools for the Company to manage not only its environmental responsibilities but also the business development by focusing on the pollution prevention and environmental protection so overall help reduce the environmental impact as well as reduce operating costs of the business. Moreover, the Company has been certified by the International Standard for Occupational Health, Safety and Environment (OHSAS 18001 and TIS 18001) with the policy expressing the commitment to operate business not only to resolve health and safety at work but also cover ways to prevent accidents to the workers and the surrounding community.

The Company encourages the use of resources efficiently by arranging various energy saving projects (refer to Corporate Social Responsibility Section). The Board supports the training of all employees to achieve a better understanding and create awareness of the environment. In 2016, various environmental training courses had been provided to employees by both internal and external instructors such as:

Corporate Governance

Environmental aspects' assessment: To identify environmental issues arising from activities, products and services within the scope of the environmental management system for the environmental aspects so the company can plan to make improvement.

Advanced energy saving: To raise awareness of the issues of natural resources and awareness of the environment and energy conservation so that employees can apply the skills, knowledge and experience into practice and everyday life properly and in accordance with company policy.

Intensive use of chemical safety: To train to employees who perform work related to chemical, emergency team and related functions for understand what the chemical hazards in the workplace and their effect on health and the environment including the control or management of such hazardous chemicals.

By providing those courses to our employees, the Company could determine priorities and set objectives better for eliminating hazards, reducing risks and the developing continuous improvement. The Company also gains from the efficient use of resources including better effective environmental management.

Government authorities and associated organizations

Hana requires its executive, directors and employees to understand and abide by those laws, regulations, policies, and procedures that applicable to them in the performance of their job duties including the duties to pay tax to the government properly.

Anti-corruption

Anti-corruption policy: The Company established the anti-corruption policy and has been reviewed and approved by the Board yearly. The anti-corruption policy is as follows.

“Hana has a zero tolerance of bribery and corruption. The Company prohibits the Board of Directors, management, employees or third parties in their relationship with the Company, being involved in any act of corruption in any form in all business transactions to benefit directly or indirectly and shall comply with the applicable laws and regulations in all the countries in which the Company operates.”

Risk assessment: In 2016, the Risk Management Committee assessed the potential corruption risks by conducting the corruption risks meetings separate from other risks. The risk profile was reported to the Board by having the Compliance Unit perform compliance audit in mitigated risks with the established policy.

Corporate Governance

Training and communication: In 2016, the Company communicated and provided training to employees regarding its anticorruption policy and related policies i.e., corporate code of conducts, gifts and hospitality policy, conflict of interest policy, at which time management received training from the corporate trainers. Employees can get access to the policies via the Company's bulletin boards and intranet website. The supplier code of conduct covering the anti-corruption policy has been communicated with both overseas and local suppliers for their acknowledgment and compliance. In 2016, the Company received the signed acknowledgement from 1,339 suppliers, which was accounted for 99% from the goal of 100%.

Monitoring and review: The Audit Committee reviews the anti-corruption policy on an annual basis and proposes any amendment to the Board for approval. The Audit Committee also monitors the implementation of the policy and makes recommendations accordingly. Internal control systems and procedures shall be reviewed periodically by an internal audit department to ensure that they are effective in countering bribery and the audit results are to be discussed with relevant operational personnel and reported to senior management and the Audit Committee. In 2016, the risk assessment including the compliance with the anti-corruption policy was reported to the Board for consideration.

Certification: The Company was certified by Thailand's Private Sector Collective Action Coalition Against Corruption since 2015 for the Company's actions and effort to support the mobilization of the private sector in the fight against corruption. In addition, the Company also became the partnership of PACT Network established by the Thaipat Institute to promote concrete anti-corruption in the private sector.

Channel of Complaints

The Board provides channels for stakeholders to communicate any concerns about illegal, any suspected fraud or corruption, human right violation, unethical conduct or violation of the good corporate governance, any suggestion or any complaints regarding to activities or conduct of the Company or any of its staff or business partners relating to the Company. Stakeholders can report such complaint or concern in good faith directly to following channels.

Any whistleblower in Hana group should initially make a complaint or report any act of misconduct or suspicions through the respective channels such as through an employee's direct supervisor (manager level and above); the head of Human Resource Department of each Hana location or suggestion/red box available at each Hana location. If employees cannot go to their respective channels, they could report to the above channels.

Handling of complaints: The Company will decide how to respond in a responsible and appropriate manner. An investigation will be conducted as speedily and sensitively as possible in accordance with all relevant laws and regulations. The internal audit department will report the details of complaints and investigation results to the Executive Committee or the Audit Committee and the Board depending on the complaint, dispute or issue raised.

Protection of reporting individual: It is a policy that the Company will not discharge, demote, suspend, threaten, harass or in any other actions against any person reporting any such complaint that made in good faith.

In 2016, the Board did not receive any complaints about corruption/fraud, breach of business ethics and corporate governance, human right violation or no complaint that damage to the Company's reputation due to the administration of the Board of Directors, as well as no legal dispute concerning labour, human rights, and the environment.

4. Disclosure and Transparency

The Company ensures timely disclosure of all material matters and all relevant information is reported to the Stock Exchange of Thailand in accordance with the disclosure requirements. It is critical to have as much information as can be available so that continuous evaluation of investment performance may be conducted. The Company will make the effort to disclose information broadly and proactively through channels of communication that allow equal access to market participants. New information that is likely to materially influence the valuation of the Company's shares shall be disclosed to the market immediately and the information disclosed to investors will be accurate, not misleading and sufficient for investors to make decisions. In addition to the information disclosure in accordance with relevant regulations, through the channels of the Stock Exchange of Thailand and annual report as well as 56-1 report, the Company also discloses information in both Thai and English versions through other channels such as the Company's website with regularly post and update. In 2016, there was no violation that Hana breached the disclosure rules and regulations. The financial reports have been disclosed in a timely manner during the past years.

The Company has not set up the Investor Relations Department, but the Company's executive directors are actively involved in the role of investor relations on a continuous basis as the Company believes that their ability to deliver confident and clear presentation is as important a skill as technical and managerial capabilities. The Corporate Affairs Department is also available to provide basic information upon request. The Company usually arranges an analyst meeting each quarter to inform the investor community of the financial result and also clarify all inquiries from Institutional Investors, Fund Managers and analysts who attend the meeting. In 2016, the Company conducted analyst meetings four times to provide information about the past quarters' performance to the interested persons. Additionally, the Company's visits by interested analysts are also welcome and can be arranged by appointment. All investors can access the Company's financial and non-financial information through the SET's Public disclosure system and at the Company's website: www.hanagroup.com, or contact to following person.

Conflict of interest

The Company has the policy in place to deal with conflicts of interest. The Board of Directors has established the policy and procedure for directors and executives to report on conflict of interest to ensure that they are abided by their fiduciary duties in the way that they must not have interest, whether directly or indirectly, in the matter under their decision. Directors and executives are required to disclose any material interest in transactions or matters affecting the Company and its subsidiaries through the established form approved by the Board of Directors. The corporate secretary is responsible for

Corporate Governance

receiving reports from directors and executives who disclose their interests and those of their related parties to the Chairman of Audit Committee and the Chairman of the Board, respectively.

Related party transactions between the Company and a director or executive and/or connected persons, which may lead to the potential conflict of interests, must be considered by the Audit Committee. For material related party transactions, such transaction must be approved by the Board of Directors and/or the shareholders' meeting depending on the nature and the size of transaction as required by Notification of the Capital Market Supervisory Board where those directors and executives shall be excluded from decision making involving transactions in which they have interests or are connected.

In 2016, there was no conflict of interest from directors and executives reported to the Board.

5. Responsibilities of the Board of Directors

The Board of Directors consists of 6 directors which are 3 executive directors and 3 independent directors whose is accounted for 50% of the Board, which is in line with SEC rules. The Board plans to increase the number of the independent director whenever that will be suitable for the size and structure of the business. The chairman of the Board is not the same person who holds the Chief Executive Officer position and the chairman is an independent director.

Board diversify

The Company is open wide to the diversity of the structure of the Board of Directors. The person who will serve as a director should provide complementary qualification to the existing directors such as expertise in specific field, gender, etc. As part of adopting our diversity policy, the Board had nominated a female independent director to serve as its member.

Nomination of director and independent director

The Board of Directors gives emphasis on the transparency of director nomination. The Company has the policy to use a professional search firm, IOD director pool for new director recruitment or personal recommendation. In addition, the Company has the policy to give the right to minority shareholders to propose appropriate candidates for election to the Board. The Nomination Committee is responsible for review of the qualification and performance of the candidates or those directors who retired by rotation and make recommendations to the Board of Directors for proposing to shareholders for approval.

In 2016, there was no proposal for candidates sent by shareholders to the Nomination Committee to review. Therefore, the Board considered those directors who retired by rotation and which the Board considers based on their qualification, working experiences, expertise, previous year performances, willingness and time devoted to the Board are suitable to be considered for re-election.

Qualification of director

A person who serves as a director of the Company shall possess the knowledge, ability, personal contribution and shall have at least the following qualification.

- 1) To have qualification and have no prohibited characteristics as specified by the laws on public company limited including have no manner indicating a lack of trustworthiness to manage the Company from the view of shareholders according to the Securities and Exchange Commission regulations.
- 2) To have knowledge, skill, expertise, experience, education and gender as the Board deems appropriate for its composition, diversity and that can contribute to the Company's strategies. In addition, at least 1 executive director is to be experienced in the electronic industry or related to the Company's business.

- 3) To devote time especially for making key decision and handle duties for the best interest of the Company and able to participate in all the Board and shareholder meetings unless necessary or emergency.
- 4) To have a moral, ethical, and any other features that may be required by law or deemed appropriate by the Board.

Qualification of independent director

A person who serves as an independent director of the Company shall possess the knowledge, ability and personal contribution. At least one member of the Audit Committee must have financial knowledge and other qualification not contrary to any regulation of the Securities Exchange of Commission (SEC) or the Company policy.

To ensure that the Board includes such directors who can exercise their best judgment, all independent directors shall be affirmatively determined that such director meets the requirement set by the Securities Exchange of Commission (SEC). In particular, an independent director is a director who:

- 1) Holds shares less than 0.5% of the total shares eligible to vote of the Company, subsidiaries, associates, or controlling parties, including the shares held by the related parties of an independent director (This shareholding threshold of the Company's shares held by the independent directors is more strict than the minimum requirements of the SEC and SET.)
- 2) Who is not an executive director, employee, or consultant who receives remuneration from the Company or any of its subsidiaries, who is also neither a controlling person of the Company or subsidiaries nor a related person at least for the past two years
- 3) Is not the person who has relationship by means of descent or legal registration as father, mother, spouse, brothers and sisters, and children, nor being spouse of daughters and sons of management, major shareholders, controlling party/person who is in the process of nomination to be the management or controlling person of the Company or its subsidiary. This also includes normal business transactions, rent or lease of fixed assets, financial assistance, loan granting or receiving, guarantee, or other related transactions obliged the Company or its contractual party for the liability to pay the other party that is accounting from 3% of net tangible assets of the Company or twenty million baht whichever is lower.
- 4) Have no or never have business relationship with the Company, subsidiaries, associates, or related person that deprives such independence nor being a major shareholder, executive director, management of related person who has business with the Company, associate and subsidiary unless the foregoing status ended at least two years
- 5) Is not or has never been the auditor of the Company, subsidiaries, associates, major shareholders, or controlling person, nor being a major shareholder, controlling person, or partner of the auditing firm unless the foregoing status ended at least two years
- 6) Is not or has never been the professional service provider, nor legal or financial advisor with receive service fee more than two million baht per year from the Company, subsidiaries, associates, major shareholders, or controlling person, and is not a major shareholder, controlling person, or partner of the above mentioned service firms unless the foregoing status ended at least two years
- 7) Is not the director who is nominated to be the representative of directors of the Company, major shareholder, or any other shareholder related to the major shareholders
- 8) Does not conduct the same business and compete business with the Company or subsidiary, nor being a business partner or executive director, paid employee or hold more than 1% of voting shares from other companies which have the same business and compete with the Company
- 9) Does not have other conditions that unable to exercise independent opinion regarding the business the Company

Corporate Governance

Appointment of directors

The appointment of directors shall comply with the Company's Article of Association that is from the majority vote of shareholder meeting. Each shareholder shall have one vote on each share. Election of directors may be carried out on either an individual basis or en bloc basis as the meeting deem appropriate. In voting, either on an individual or en bloc basis, a shareholder shall so vote in accordance with the number of votes each shareholder has under and the said shareholder may not allot any number of his votes to any such person. The person obtaining the highest votes and the persons obtaining lesser votes, respectively, (in the case of en bloc election) whose total number does not exceed the positions under the election shall be elected as directors. In the case of tied votes, the last person shall be decided by the casting vote of the chairman of the meeting.

In case a directorship becomes vacant other than on retirement by rotation, the Board shall elect a person who has qualifications and who is not disqualified under the Public Companies Limited Act as replacement at subsequent meeting of the Board of Directors. Unless the remaining duration of the director's term of office is less than two month, the replacing director shall hold office for the remaining term of office of the director whom he replaces. The resolution of the Board of Directors shall be supported by a vote of not less than three-fourth (3/4) of the number of remaining directors.

Supervision of subsidiary and associated companies

The Board has its mechanisms to manage and oversight the subsidiary and associated companies. The Board has delegated to the Executive Committee to oversee and responsible for the operations of its subsidiaries and associates include appointing the representative to be a director or a controlling person and shall report to the Board accordingly. From the Board's resolution No. 6/2013, the Board has resolved that the appointed person must be approved by the Board prior to vote on important matters in the same approval levels of the Company that has to approve by the Board. This includes the connected transaction and the acquisition or disposition of assets by the rules relating to the disclosure of information and the transaction is in line with the rules of the Company. In addition, the maintenance of information and accounting records of the subsidiaries can be verified and financial statements can be consolidated within timelines.

Board of directors' meetings

The Board of Directors set the meeting schedules in advance by informing in the meeting agenda before each year-ending so that the directors can arrange their times to attend the meetings. In 2016, the Company held 7 meetings of the Board of Directors, which are the normal agenda items. The total number of directors attending the meeting must be no less than one half of the total number of directors to constitute a quorum. The chairman of the Board and CEO set the agenda of the Board's meetings. Any director may suggest agenda items and may raise at meetings other matters that they consider importance of discussion. Information and data for the Board's understanding of the business to be discussed at meetings are distributed in advance of meetings according to the policy that is to provide 5 days in advance. To prepare for meetings, directors are responsible for reviewing the materials that are sent to them in advance. If there are additional inquiries, the directors can contact the CEO, the corporate secretary or designate executives. At the Board meeting, ample time is scheduled to allow full discussion of important matters. Management presentations are scheduled to permit an appropriate portion of the Board's meeting time to be available for discussion and comments. The Board's policy is to vote on the agenda item by having at least 2 out of 3 of total directors present in the meeting for each agenda item. In 2016, the Board invited the General Manager of Hana Lamphun plant to attend the Board's meeting in order to provide additional business information and to allow independent directors to visit the plant. The minutes of Board of Directors meeting are properly made and contain key facts such as the timing of start and finish, name of directors present and absent, summary of items of major discussion and resolutions, the minute taker and certifier. The minutes are maintained at the Company's head office and cannot be edited without prior consent of the Board's approval.

Corporate Governance

The meeting without attendance of management

The Board encourages the non-executive directors to have a separate meeting in absence of management to encourage more open discussion without management present. In 2016, the independent directors conducted a meeting without attendance of management 1 time. The meeting was conducted with the participation of internal and external auditors.

Orientation for new directors

The newly appointed director shall receive an orientation regarding the Company's business, duties and responsibilities of directors. The brief review shall be led by the Chief Executive Officer, Chief Financial Officer or his appointee. All other necessary information shall be given by the corporate secretary. In 2016, the Company provided the orientation program to a new board member who has no previous experience in the electronic industry by attending the training courses including the factory visit to see the production processes, meet with general manager and employees in order to gain more understanding and experience.

Director development

The Board's policy is to encourage the development of directors for continuous trainings organized by various institutions such as SET, SEC, IOD or the audit firm, etc.

Corporate Governance

In 2016, the directors attended following training courses.

Name	Position	Course
1. Mr. Yingsak Jenratha	Independent Director	<ul style="list-style-type: none">• Roles of the Nomination and Governance Committee (RNG) 8/2016
2. Mrs. Salakchitt Preedaporn	Independent Director	<ul style="list-style-type: none">• Challenges of the Audit Committee with the reviewing roles of financial and non-financial information, conducted by the Securities and Exchange Commission (SEC)• CG Forum 2/2016 – Honest, Cautious, and Protective for Directors• CG Forum 3/2016 – Corruption Detection, Control and Prevention

In addition, the Board also encourages the corporate secretary to develop her knowledge for proper execution of duties and responsibilities. The corporate secretary, Ms. Jirapa Kongmanee, had attended following training courses.

- 1) Corporate Secretary Program 19/2006 organized by Thai Institute of Directors Association (IOD)
- 2) Effective Minute Taking – EMT 4/2006 organized by Thai Institute of Directors Association (IOD)
- 3) CS Seminar for key documentation keeping 2/2009 organized by SEC

In 2016, the corporate secretary attended the seminars held by the SET, Thai Investors Association, Thaipat Institute and Thai Institute of Directors such as:-

- CG Forum 2/2016 – Honest, Cautious, and Protective for Directors
- CG Forum 3/2016 – Corruption Detection, Control and Prevention
- Customs Facilitation Act and the Benefits to Private Sectors
- AGM Assessment of Thai Listed Companies

Service on other Boards

In order to give proper attention and contribution to the assigned responsibilities, the Board believes that directors including the CEO should limit their services to not more than 3 Boards of publicly traded companies.

Performance assessment of the Board of Directors

The Board has conducted its annual performance for individual and as a group evaluation by adopting the self-assessment method from the Stock Exchange of Thailand to assess performance in the latest year. The Board self-assessment questionnaire allowed the Board to assess their effectiveness into 6 aspects:

1. Board structure and qualifications
2. Roles, duties and responsibility of the Board
3. The Board meeting
4. Duties of directors
5. Relationship with management
6. Director's self-improvement and management training

Further, the Board also can provide feedback in the assessment form to improve the Board's performance. The corporate secretary concludes the Board's group performance and report to the Board meeting. In 2016, the overall performance of the Board's group was assessed at "very good" ranking.

The Board also has conducted the performance evaluation of an individual director using the self-assessment method with evaluation criteria. In 2016, the corporate secretary concluded the Board's individual performance and reported to the Board's meeting with the average performance was "very good" ranking.

Performance assessment of the sub-committees

The Board has also annually conducted the performance evaluation of all sub-committees that are the Audit Committee, the Nomination Committee, the Corporate Governance Committee and the Risk Management Committee. Those Committees evaluate their own assessment and the corporate secretary reports the result to the Board. In 2016, each sub-committee got the average score as "very good".

Performance assessment of CEO

On an annual basis, the performance of CEO is evaluated by the independent directors, where the evaluation criteria have been applied from the guidance of the Stock Exchange of Thailand. The areas to assess CEO cover his leadership, strategy formulation, strategy execution, financial planning and performance, relationships with the board, external relations, human resources management and relations, succession, products/service knowledge and personal qualities. In 2016, the independent directors assessed the CEO with satisfactory performance.

CEO succession plan

The Board of Directors has improved its succession planning approach by developing the formal CEO succession planning policy in adopting a more comprehensive program that anticipates internal CEO succession while preparing for the possible need to recruit an external candidate depending on the circumstances whether on a planned or emergency basis.

An emergency succession is required when CEO is unable to perform the duties due to accident or other unexpected circumstances. A special meeting of the Board would be convened to decide which of the executives might be appointed as Acting CEO for the remainder of the time required.

In the event of permanent changes due to retirement or planned vacancy, the entire Board shall be involved in choosing a successor. However, the Board could delegate much of the responsibility to implement the search to the Nomination Committee or a special ad hoc committee to work with the Board and current CEO to identify and develop potential internal candidates, monitor the development of candidates and assess the readiness of candidates, or conduct an external search if cannot come to an agreement on an internal candidate, etc.

Managing the CEO succession plan is the Board's responsibility. The plan shall be reviewed annually to ensure that key components are up-to-date, particularly the CEO's job description, minimum qualification requirements, minimum experience and personal characteristics and the succession readiness improvement.

Business ethics

The Board of Directors attempts to operate its worldwide business in accordance with the highest ethical standards and relevant laws. The Company expects and requires that its directors, officers and employees perform their duties with the highest standards of integrity in the conduct of business. Therefore, the corporate code of conduct has been written as the Company's policy and procedure in order to provide the general guidance for those in recognizing and resolving ethical and legal issues while conducting the Company's business. The written code of conduct is available on the Company website. All directors and employees are notified and encouraged to comply with the set codes. The compliance to the

Corporate Governance

code of conduct is regularly monitored by senior management. The Company shall not tolerate any illegal or unethical acts. Anyone violating the code of conduct will be disciplined, which may include termination of employment.

In 2016 to ensure that employees have the knowledge and understanding of the policies and practices of business ethics, the Company conducted trainings for employees and provided the post-tests to evaluate the training results. In addition, all the directors were required to sign a certification of acknowledgement and compliance with the code of conducts for the Board of Directors. The internal audit department also monitored the implementation and compliance for the code of conducts.

For the available whistleblowing channels, no compliant or dispute regarding ethical issue was reported in 2016.

Auditor's remuneration

In 2016, the Annual General Meeting of Shareholders approved the appointment of Mrs. Saifon Inkaew, Certified Public Accountant No. 4434 of EY Office Limited to be the company's auditor with the remuneration of not exceeding Baht 2,270,000.

The company and its subsidiaries paid the audit fees to EY Office Limited, Thailand as follows.

1. Audit Fee

(Unit: Baht)

Company	2016	2015
Hana Microelectronics Public Co., Ltd.	2,270,000	2,170,000
3 subsidiaries	1,650,000	1,650,000
Total	3,920,000	3,820,000

2. Non-audit Fee

(Unit: Baht)

Company	Non-audit fees	2016	2015
Hana Microelectronics Public Co., Ltd.	1. BOI audit fee	360,000	360,000
	2. Inventory destruction fee	100,000	75,000
3 subsidiaries	1. BOI audit fee	450,000	450,000
	2. Inventory destruction fee	-	40,000
Total		910,000	925,000

For the financial year ended 31 December 2016, the external auditors confirmed to the Audit Committee on the actions they take to maintain their professional independence with respect to the Company and its affiliates in accordance with the Code of Ethics for Professional Accountants issued by Thailand's Federation of Accounting Professions by not holding any shares in the Company and its affiliates, not providing non-audit services, and not purchasing goods and services from the Company and its affiliates.

Internal Control and Risk Management

The Board of Directors is responsible for establishing and maintaining the internal control system. The Board has appointed the Audit Committee to review the appropriateness and effectiveness of the internal control system provided by management. The Audit Committee shall ensure that such existing internal control systems are achieving their objectives and that they should provide reasonable assurance concerning the accuracy of financial statements, the safeguard of assets against loss, unauthorized use or fraud, and the assurance of transactions that are executed consistent with company policies and procedures.

In 2016, the Board has performed self-assessment to evaluate the internal control system by applying the control assessment criteria from the Stock Exchange of Thailand. There is an Internal Audit Department and Compliance Unit to monitor and oversee the overall company activities in line with established system and applicable laws and regulations. The Risk Management Committee has been appointed to ensure implementation of the risk management policy to be monitored and limited overall risks at an acceptable level.

From the Board of Directors' Meeting No. 7 held on 15 December 2016 with the Audit Committee attended the meeting, the Board has assessed the Company's internal control system based on 5 components of COSO's Internal Control Integrated Framework which are Control Environment, Risk Assessment, Control Activities, Information & Communication, and Monitoring Activities.

The Board agreed with the Audit Committee that the existing internal control system is considered appropriate and adequate as summarized below.

1. Control Environment

The Company has established organization structure, line of control, approval authorities for different managerial levels, and the charter of various committees to assist in discharging duties and responsibilities of the Board of Directors. The policies on corporate governance, code of conduct, anti-corruption policy and the operation policies and procedures are written as guidelines for directors, executive and employees to perform their duties with integrity.

2. Risk Assessment

The Risk Management Committee has been appointed to ensure implementation of the risk management policy to be monitored and limited overall risks at an acceptable level. The Company also considers the potential for fraud in assessing risks to the achievement of objectives.

3. Control Activities

The Company develops general control activities to mitigate risks such as the segregation of duties among approval, accounting booking and asset's custody, the security control of information technology system, the policy to approve transactions done by people who have no interest in the transaction.

4. Information and Communication

The Company's management provides the Board with adequate information for decisions and sends the notice or document to the Board in advance for their preparation. The minutes of the board meeting could be able to track back concerning the duties of the directors. The Company has the whistle blower channels for internal and external parties.

Internal Control and Risk Management

5. Monitoring Activities

The appropriateness and adequacy of internal control is monitored regularly through a combination of management review, self-assessment, compliance and internal & external audits. The results of internal & external audit and compliance reviews are reported to the Audit Committee on a regular basis. The Audit Committee also approves the internal audit and compliance unit plans.

Internal Audit

The Audit Committee has appointed Ms. Jirapa Kongmanee to the position of head of internal audit unit from 10 September 1999 due to having adequate experiences in internal audit field and have been trained in the training courses related to the scope of internal audit such as Internal Audit Role in Governance, Risk and Control, Business Management Skills, Business Analysis and Information Technology, COSO Internal Control Framework, including training course related to the new laws and new accounting standards, and she understands the activities and operations of the Company so she is appropriate to perform such duties properly and adequately. The internal audit has a reporting line to the Audit Committee who considers and approves the appointment, transfer and dismissal of the head of internal audit.

Compliance Unit

The Board of Directors' Meeting No. 5 held on 13 November 2013 has appointed Ms. Jirapa Kongmanee to the position of the head of Compliance Unit to be responsible for overseeing the business operations of Hana group in accordance with the laws, rules and regulations of the relevant authorities.

Corporate Social Responsibility

Hana recognizes that our long-term success depends on our ability to manage our operations soundly, efficiently in an increasingly complex environment, to create value for our stakeholders and to further contribute to society.

CSR Policy, Vision and Strategies for Sustainable Development:

Policy: The Board of Directors commits that the Company will conduct business with respect to its economic, social, and environmental responsibilities, as well as for other stakeholders. The Board also commits that the Company's business will be conducted in an open, honest, and ethical manner. Hana and its subsidiaries recognize the importance of protecting human rights, consumer rights, environmental management, compliance with applicable laws, regulations and to contribute to community development for long term success of the Company, society and stakeholders.

Vision: To operate our business in harmony with society for the mutual benefit of our stakeholders and community.

Strategy: Hana's business environment is highly competitive. The Company seeks to expand its sales each year and to continually improve the capabilities and productivity of its production processes. Whilst doing so the management and staff are mindful of the CSR policies for sustainable development and review each change to ensure compliance with the CSR objectives toward sustainable development with regards to the economic, social and environmental impact. In addition, the Company and its subsidiaries have established CSR committees at each plant with representatives from different departments which focus on the Company's relationship with our stakeholders.

Corporate Social Responsibility

Corporate Social Responsibility

Our Priorities:

Following are our sustainability development efforts on areas that are of greatest interest and concerns to our stakeholders.

Economy

- 1) Strong cash flow and continuous dividend payment
- 2) Good business governance
- 3) Ethic and anti-corruption

Social

- 1) Occupational Health, Safety and Labour policies
- 2) Labour practice
- 3) Community and social interaction

Environment

- 1) Environmental policy and management
- 2) Efficient use of resources
- 3) Minimize environmental impact

In 2016, the Company and its subsidiaries operated our businesses by integrating with CSR principles of the Stock Exchange of Thailand as follows.

1. Corporate Governance

The Board realizes and commits to conduct business with the good corporate governance in conformance with OECD Principles of Corporate Governance as a key international standard in making an organization more efficiency, transparency, enhancing the credibility and strengthening sustainable growth. The Board has established and approved the corporate governance policy and the corporate code of conducts as the guidelines for the directors, executives and employees in discharging their duties. Due to our continued development of good corporate governance, the Company received an “excellent or five-star” CG rating as evaluated by Thailand Institute of Directors (IOD) in 2016.

The Board continues making development of good corporate governance practices in order to create maximum benefits to shareholders and other stakeholders resulting in sustainable corporate performance over the long term.

2. Fair Operating Practice

Fair and open competition: Hana conduct its business in compliance with competition laws and regulations, advising employees to realize the important of fair competition policy, avoiding and anti-monopoly trading, not asking for and not receiving or paying any benefits that are not honest with trading partners or government officers, and not seeking the confidential information of competitors by fraudulent, dishonest, inappropriate, immoral or illegal acts.

Safeguard the property right of others: Hana respects the rights of tangible and intellectual property of others by not engaging in any activity that violates such rights e.g. using a superior market power to make abuse, making fake products or violating intellectual property right, etc.

Customer relationship management: The customer satisfaction surveys are conducted annually to improve the Company’s products, services and other business processes in order to meet the customers’ needs and requirements enabling the Company to maintain and expand its customer base in the long term. The Company also complies with the Electronic

Corporate Social Responsibility

Industry Citizenship Coalition (EICC) which is the code of conduct for electronic industry best practices.

Promote value supply chain: The Company is taking its efforts to build open business relationships and ensure fair and even-handed dealings with its suppliers, cooperative and support CSR activities in aiming at building a sustainable society in full partnership with its suppliers such as ensure to comply with established purchasing procedure. The Company also encouraged its business partners for fair operating practices by requiring suppliers to sign on acknowledgement and compliance with the code of conducts for suppliers as well as performing the supplier audit.

3. Anti-Corruption

The Company realizes the importance of the fight against corruption. The written anti-corruption and related policies have been established with the monitoring process to ensure that employees and concerned parties comply with the policies and anti-corruption programs. The Company also provides whistleblowing channels, set up an anti-corruption committee with the senior management as a chairman, does corruption risk assessment, employees' training as well as participating with partners to fight against corruption.

Hana has been a signatory company of Thailand's Private Sector Collective Action Coalition Against Corruption (CAC) since 2013, with the objective to support the Coalition against Corruption aiming to counter corruption in any forms.

The Company has lately been certified as a member of Thailand's Private Sector Collective Action Coalition Against Corruption since October 2015 which affirms that the Company has supported the fighting corruption through the implementation of policies and effective mechanisms to prevent corruption at company and industry levels.

4. Respect of Human Rights

Hana respects the basic human rights of individuals. The Company has policies to ensure that there shall be no human right violation, all employees treated equally and operate in a workplace that is free from discrimination. The Company has the career path development program for employees to enhance their knowledge and skills and open opportunities for future growth. Employees' remuneration shall be the same standard for men and women. Open communication and direct engagement between workers and management are the best ways to resolve workplace and compensation issues. The Company respects the rights of workers' councils in accordance with local laws. Workers shall be able to communicate openly with management without fear of reprisal, intimidation or harassment. Employee satisfaction surveys have been regularly conducted to provide management with the knowledge and tools to build positive employee relations and a positive work environment. Channels of complaint are also opened to all employees while protecting employees who report violations or wrongdoing in the Company.

In 2016, the Company had no major issues regarding labour and human rights from our key customers' in-depth audits, where those audits had focused on anti-discrimination, anti-harassment and abuse, prevention of involuntary labour and underage labour, working hours, compensation, freedom of association, and etc.

5. Fair Labour Treatment

Non-discrimination in employment: Hana supports the principles of equal opportunities in employment, promotion or termination and is opposed to all forms of discrimination, including those on the grounds of nationality, color, race, religion, gender, age, disability, marital status, political affiliation, union membership, or any other status protected by country law. All employees will be treated as individuals solely according to their ability to meet job requirements. The Company has implemented the procedure starting with the recruitment process by not having on the employment application form any requirement for candidates to complete the specific information of age, religion, gender, nationality, and disability in order to avoid discrimination in hiring.

Corporate Social Responsibility

In addition, Hana supports projects of the government to protect the rights of disabled persons to provide them with employment opportunities. The Company employs persons who are disabled and arranges the appropriate job matching to their capability. The Company also improved workplace environment to enable employees with disabilities easier access to the Company's facilities. Furthermore, Hana also arranges a place for disabled persons to open shops in the factory compound at no cost, which gain the good support from employees. In 2016, Hana Semiconductor (Ayutthaya) Co., Ltd., a subsidiary of the Company received a prize of "The Top Ten Best Employers in Thailand who supported the disabled persons" by the Office of the National Development and Disabilities, the Ministry of Social Development and Human Security for empowerment and support disability program for 4th consecutive years.

Not using forced labour or child labour: The Company does not use trafficked, forced labour or child labour. The Company shall comply with applicable laws whether laws prohibiting complaints to support slavery or trafficking, and shall not use or enter into the agreement for forced labour including slavery such as assign employees to certain types of work which they either do not willing to do or as punishment. Employees are free to resign from the employment by giving advanced notice and the Company shall not keep their identification cards, passport or work permit with the Company as part of employment obligation.

Social protection: Our compensation policy is fair and reasonable according to employees' capability by considering the packages with the same industry and in accordance with their position, experience and their performance in the Company as well as the economic and social situation. Moreover, the Company provides various employees' welfare for example annual vacation, overtime with the consent of employee, medical treatment, educational fund granted for children of low income employees, employees' cooperatives and other welfares such as group life and accident insurances, annual health check, special vaccination such as Influenza vaccine, Fitness Center, library at certain location, etc.

There are also long service awards and retirement for employees to honor and recognize their contribution over a period of years. The Company also provides the reward program to recognize exemplary performance of employees who have excellent work attendance, no record of disciplinary action, significant contributions and innovations to reduce the Company's cost or improve efficiency, or demonstrated their ability and willingness to work positively, respectfully, and effectively with others, etc.

Corporate Social Responsibility

The Company provides pregnancy care support for pregnant employees by providing training regarding midwifery and newborn care, gift sets and pregnancy allowance per month. In 2016, the Company provided the support to pregnant employees and scholarships for employees' children over Baht 1 million.

Safety, health and environment at the workplace: The Company focuses on the work environment that is safe for both physical and mental health. The Company has been certified for OHSAS 18000 and TIS 18001 which is an international and Thai's occupational health and safety management system since 2005 to date. The Company is committed to developing environmental and safety, health of employees and those involved, as well as uphold social responsibility and labour, along with operating the business and making continuous improvement as follows.

Corporate Social Responsibility

1. Conserve natural resources and energy effectively to prevent pollution and minimize generation of all wastes.
2. Provide the safe and proper workplace and equipment in order to prevent any accident and incidence from occurrence.
3. Strictly comply with labour and other applicable legal and regulations and provide full support to customers' requirements with regard to occupational health, safety, environment, including social and labour accountability (e.g., Electronic Industry Citizenship Coalition (EICC) Code of Conduct.)

The main content of this policy has been communicated to employees at all levels through the Company's noticeboard, the intranet website, and post on employee's ID card as the guidelines for employees to perform their work with the same objectives. In addition, the Company's policy has been released to the public by posting in front of the factory and communicating to business partners outside the Company.

In 2016, the Company received an excellent award for Safety, Occupational Health and Environment in the workplace at the country level, given by the Ministry of Labour.

Recreational activities for employees: The Company realizes the importance of employees by arranging various recreational activities as part of the Company's strategy to develop and build relationships between management and employees, as well as creating a "family" culture within the organization which allows employees to enjoy their work. In 2016, the Company and its subsidiaries provided a variety of recreational activities for employees such as sport day, birthday party, Songkran party, Mother's Day and other major festivals of each Hana location, etc.

The Company also held a "Teacher's Day" to honor employees who dedicated their times and efforts being a volunteer teacher or lecturer to train staff. In 2016, there were totally 57 internal instructors joining knowledge sharing program.

Corporate Social Responsibility

The Company also arranged, meet the management meetings with staff, with a quarterly meeting with existing and new employees including senior staff level and twice a year with all employees. In addition, the Board and executives also arranged the visit to a new factory in Camdodia. This is a good opportunity for management to meet and discuss with employees so that we can have 2-way communication so enable management to bring such feedback for improvement plan and minimize the gap between management and staff as well.

6. Customer Responsiveness

The products and services that we make are safe and not harmful to consumers. The Company is accredited with following international standards.

- ISO 9001 quality management system where the Company can demonstrate procedures to consistently provide products that meets customer, applicable statutory and regulatory requirements.
- ISO/TS 16949 quality system for automotive production which focuses on the technical production of high quality automotive parts.
- ISO 13485 quality system used in the medical device industry which is a quality system that mostly focuses on the safety of products.

In addition, the Company promotes fair trading and has the policy to assess customer satisfaction both before and after sale to improve customer satisfaction and continuous improvement.

Quality improvement program: It is the policy of the Company to encourage all employees to participate in improving their own work processes i.e., reduce defect in production line, reduce cycle time, reduce error and customer complaints and improve quality through multiple initiative projects such as Quality Control Circles (QCC), improvement project, special projects assigned by the chairman for employees level supervisors or engineers and technicians, employees' suggestion, small group activity, and continuous improvement program (CIP). Our quality improvement programs have been continuously developed and recognized by both internal and external organizations.

Corporate Social Responsibility

National quality award: Our employees participated in group activities for Thailand Quality Prize organized by Technology Promotion Association (Thailand-Japan). Hana Microelectronics Public Co., Ltd. received various awards from 2009 to 2016. In 2016, the Company received the diamond award for the Junior Manufacturing QCC Prize and the golden award for Manufacturing QCC Prize. The subsidiary, Hana Semiconductor (Ayutthaya) Co., Ltd. received the silver award for Quality Support Service QCC Prize.

7. Environmental Care

Environmental management: As Hana has its manufacturing sites located in industrial estates, there are a number of control and management systems and standards to prevent pollution and impact to the environment and community. The Company also has been certified for environmental management system ISO 14001 since 1999. The Company operates its business in compliance with the requirements of industrial and environmental legislation and applicable laws. There is the environmental committee responsible for overseeing the environmental management and the effective implementation.

Use of resource efficiency: In 2016, the Company implemented the programs to efficiently utilize the resources, reduce and prevent pollution to the environment and the community as follows:

Electricity: The Company invested in various projects to reduce energy consumption such as installation of dehumidification systems connected to fresh air units enabling the energy saving of 806,720 kWh and reducing carbon dioxide (CO₂) emissions by 427,562 kilograms per year; changing fans at the cooling tower enabling the energy saving of 71,451 kWh and

Corporate Social Responsibility

reducing CO2 emissions by 37,869 kilograms per year. This project is the Department of Alternative Energy Development and Efficiency provided investment support for energy conservation program. In addition, the Company also implemented the project to reduce the loss of pressure in the air duct by expanding the air ducts with the saving of 432,000 kWh of energy and reducing CO2 emissions by 241,920 kilograms per year. In 2017, the Company plans to continue its energy saving program for example installation of a compressed air supply enabling the energy saving of 428,301 kWh and reducing CO2 emissions by 227,000 kilograms per year, and replacing higher performance motors at the cooling water pumps enabling the energy saving of 9,522 kWh and reducing CO2 emissions by 4,970 kilograms per year.

Water quality: The operation of wastewater system is monitored on a daily basis to ensure that the wastewater treatment is under control and better than the government standards. The waste water from the production process was treated and filtered to increase the recycled water usage by 41.92% in 2016.

Air quality: The control of air emissions are in line with the standards and related laws. The Company monitors and does preventive maintenance of equipment related to various air pollution controls and performs measurement of air quality in the workplace. From the implementation, the air quality expelled from our factory is better than the standard required in all indicators.

Noise level: The Company maintains machinery and equipment in good condition and provides personal protective equipment (such as ear plugs, ear muffs, etc.) to employees who work in a noisy environment. In working areas where noise levels exceed 85 decibels, the hearing health check-up for those employees have been provided periodically.

Illumination measurement: Insufficient or excessive illumination could cause the employees' fatigue. The Company has provided the assessment and measurement of the intensity of the light on a periodic basis as to determine whether improvement measures are needed to protect employees.

Heat stress measurement: The Company annually measures to identify whether those employees who may be at risk from heat stress are suffering from any heat related illnesses. The heat stress measurement has been in line with the standard requirement.

Waste management: The Company has implemented the separation of waste into three categories: general waste, recycle waste and hazardous waste. The waste disposition is managed according to legal standards of the Department of Industrial Works.

Chemicals and hazardous substances: In addition to ISO 14001 certification, our manufacturing plant in China has been certified for IECQ QC080000:2005 Hazardous Substance Process Management "HSPM" since 2008. IECQ accreditation creates competitive advantage in compliance with laws and operations with the highest industry standards as we have the processes in place to properly manage our products to be free from hazardous substances.

Corporate Social Responsibility

Reduce impact to environment: Our Lamphun, Ayutthaya and China plants have been certified to the standards of our customers in the project of Green Partner Program regarding environmental management systems by controlling the use of chemicals in the production, prohibiting the use of dangerous substances, discontinuing and reduction in the usage of such substances that impact to the environment such as the use of lead solder inside the product. Further, it is not allowed to use material to make the product or packaging that is harmful such as lead, mercury, etc.

Our Lamphun and Ayutthaya factories have been certified as “Green Industry Level 3” or “Green System” using the Environmental Management System which includes monitoring, evaluation and improvement. This project is a part of energy conservation of the Ministry of Industry which Hana participates in order to operate its business in an environmentally friendly manner. To become the Green Industry Level 3, the following are the outcomes that the Company would benefit from:

- Reduce impact on the environment and the community; as a result, reduce complaints and reduce the risk of future obligations.
- Create positive image and attitude towards the industry for a more environmentally friendly; resulting in a better understanding and acceptance between the industry and the surrounding community.
- Create more job employment related to environment fields, increase worker safety and satisfactory in the workplace.
- Reduce the use of resources and energy; resulting in cost savings and enhance competitive advantage.

Complaint procedures: The Company assigned environmental supervisors and operators, to receive training and registration as required by law, to communicate information with the community and residents living around. The Company also has the procedure for complaints and resolving complaints arising from the operations of the Company. In 2016, the Company has no major environmental complaints from the employees or the community.

In summary, Hana Microelectronics Public Co., Ltd. consumed energy and released carbon dioxide in 2016 compared to prior years as follows.

Key energy measurement	2016	2015 (Revision)	2014	Reference
Electricity Consumption/Revenue (kWh/MB)	5,821.49*	5,470.58	4,071.65	Total electricity consumption divided by million baht of revenue
CO2 Emission/Revenue (Kg CO2e/MB)	3,265.85*	3,068.99	2,284.20	Total CO2 emissions divided by million baht of revenue
Recycled Water Consumption (% of total water consumption)	41.92%	40%	41%	
Environmental Issues	None	None	None	

Corporate Social Responsibility

*In 2016, Hana Lamphun 2 was not operating at full capacity so the lower sale revenue resulted in the overall higher power consumption per million baht “MB” of revenue. However, the trend of power consumption of the existing factory, Lamphun 1, has continuously reduced as presented below.

Factory	2016	2015	2014
Electricity Consumption:			
Factory Lamphun 1	35,119,380	38,355,200	40,613,280
Factory Lamphun 2	10,993,320	9,367,200	-
Total electricity consumption (kWh)	46,112,700	47,722,400	40,613,280
CO2 Emission:			
Factory Lamphun 1	19,701,972	21,517,267	22,784,050
Factory Lamphun 2	6,167,253	5,254,999	-
Total CO2 emission (Kg)	25,869,225	26,772,266	22,784,050

8. Social and Community Development

The Company participates with the community to support social stability and to be a good corporate citizen through following projects.

Support rating charities: Hana Microelectronic Public Co., Ltd. had the joint event with Giving Back Association in organizing the CSR Donation Program to award the certificates to 12 charities who were Reviewed and received 3-5 Stars’ Rating for their financial efficiency and their level of commitment to good governance and transparent reporting. Hana donated to those charities Baht 540,000 in order to promote and support the quality of charities in Thailand by running their organizations with transparency, accountability and good governance toward the sustainability of society and community.

Corporate Social Responsibility

On 8 July 2016 Hana joined with Giving Back Association which held the Rating Certificate Awards with MR. Pridiyathorn Devakula, the former Deputy Prime Minister presided over the ceremony. 29 charities received the rating of 3-5 stars participated in the event. The Review and Rating charity is a new concept and is a mechanism to encourage charities to be well-run organizations operating with transparency, accountability and good governance in using the donors' funds efficiently, effectively and verifiably.

Giving Back Association (GBA) is a non-profit organization having Mr. Terrence Philip Weir, Vice President and Chief Financial Officer of Hana as a project founder and advisor. GBA aims to make it easy for donors and volunteers to find useful information of each charity in the country and region through its website www.givingbackassoc.org. GBA also provides donors with independent Reviews and Ratings of charities according to international standards which helps donors either individual or corporate, to make informed decisions when choosing charities to support.

Educational support: Hana aims to contribute to the development of society by providing educational support to the children and young people who will lead the next generation in growing up with their full potential and to achieve career planning and the national development driven.

- **Knowledge sharing** – Hana Lamphun hosted the student visit program for academic institutions such as Maejo University, Chiangmai University, Phayao University, and etc. to broaden their understanding of industrial knowledge, the view of production planning and a factory tour for students to observe the real workplace. Nearly 500 students received the hands-on experiences from this project. Hana Lamphun also shared knowledge of Quality Control Cycles to various universities including being the outside instructor for seminars held by other interested organizations.

Corporate Social Responsibility

- **Support the academic projects** – Hana Cambodia has granted the fund to build the institute of technology in Kampong Thom in Cambodia amounting to Baht 100,000. The establishment of this institute of technology is a project of Her Royal Highness Princess Maha Chakri Sirindhorn in order to provide technical education and training to poor Cambodian students.

Hana Ayutthaya has granted the fund to construct Physics Lab Building at Ayutthaya Wittayalai School amounting to Baht 800,000. This school has joined the world-class standard school in Thailand by focusing on the students' academic potential, communication and responsibility.

- **Support the academic needs in rural schools** – The Company provided scholarships and donated books, school supplies, food and cloth for students from local elementary school to college age in Chiangmai, Chiangrai, Ayuthaya, and Jiaxing in China.

Support the youth and people within the communities: The Company arranged various projects to improve the quality of life and strengthen the good relationship between the Company and the communities as below.

- The Company held the Children's Day event annually to enhance the children's learning skills and gain new experiences including encourage assertiveness in children. With the creative activities along with plenty of prizes, there were 1,000 children and parents enjoying in the National Children's Day event held by the Company in 2016.
- To help society with activities for youths, the Company annually arranged a football clinic to teach students nearby.
- To enhance safety and environmental awareness for the youth, the Company provided helmets to children and emphasized safety discipline when riding motorcycles.
- To support the volunteer projects of the Industrial Estate, the Company's staff helped build the dams to local residents to keep water during dry season.
- To provide drinking water to those more than 500 people affected by flooding in Lamphun.

Corporate Social Responsibility

Social contribution activities: To encourage employees to care for society and help others, our employees have been joined society benefiting activities initiated by the Company as follows.

- **Blood donation:** Employees of Hana Lamphun, Ayutthya and China joined with the Red Cross for blood donation. In 2016, employees donated blood more than 700,000 milliliters.

- **Underprivileged and disabled support:** The Company seeks to contribute to improve the quality of life and reduce inequities for the underprivileged in society. Hana Ayutthaya has allocated its budget and held CSR activities with employees to donate Baht 1 million to the below charities that have been reviewed and rated by Giving Back Association.

Corporate Social Responsibility

- **Volunteer activities:** Employees and executive of Hana Headquarters joined CSR volunteering activity program with HSBC Thailand which is one of the Company's partners by renovating school buildings for kindergarten and elementary students at Wat Krang Sam Yot School, Suphanburi province.

- **Other social activities:** Employees of Hana Ayuttaya donated dried food, rice, and cash more than Baht 100,000 to Wat Phrabat Namphu.

9. Innovation and its Dissemination

The Company has invested in Manufacturing Execution System to modify the traditional manufacturing process and automate production processes which can increase the competitiveness advantage of the Company by improving product quality, increasing operating efficiency, responding to higher customer requirements, managing labour issues in regards to both labour costs and labour shortages, as well as reducing waste and environmental impact.

Geared towards corporate excellence by Kaizen: From joining the competition with Thailand Kaizen Award in 2016 which was organized by the Technology Promotion Association Thailand - Japan, Hana Lamphun won 6 awards from the contest with 2 diamond awards from Automation Kaizen and 2 golden awards from Automation Kaizen and Genba Kaizen. The other 2 certificate awards from Kaizen for Office and Kaizen Suggestion. Hana Ayuttaya also received a golden award for Automation Kaizen. The factory automation projects applying Kaizen have been successfully implemented from developing the thinking process, brainstorming to increase the capacity and efficiency of the production process, and bringing into the practice of employees. With the development of innovative applications using Kaizen successfully, this could raise the Company's operations to a higher standard and strengthen the Company's competitiveness.

Audit Committee Report

The Audit Committee of Hana Microelectronics Public Company Limited is composed of three independent directors. Members of the Committee meet the qualification and the scope of work is in accordance with the rules and regulations of the Stock Exchange of Thailand.

In performing its oversight responsibilities, the Audit Committee held 4 meetings during 2016. The meeting attendance of each committee is as follows.

Committee	Meeting Attendance
1. Mr. Bancha Tarnprakorn, Chairman	4 of 4 times
2. Mrs. Salakchitt Preedaporn	4 of 4 times
3. Mr. Yingsak Jenratha	4 of 4 times

In 2016, the Audit Committee has performed its duties and responsibilities assigned by the Board of Directors and the Charter of the Audit Committee as follows.

- Review the financial statements of the Company and its subsidiaries to ensure the compliance with generally accepted accounting principles, and the disclosure of the notes to the financial statements in accordance with the financial reporting standards. The Audit Committee agreed with the auditors that the financial performance and cash flows of the Company and its subsidiaries for financial year ending 31 December 2016 presented substantial fairly and disclose with generally accepted accounting principles and financial reporting standards. Such disclosure has also made adequately and timely manner.
- Review the adequacy and efficiency of the internal control system by evaluating the internal controls, approving the annual audit plan, reviewing the audit reporting, as well as considering the risk assessment and risk control measures. From the review, the Audit Committee found no deficiency and concluded that the Company has adequate internal control and risk management systems which are appropriate to the business.
- Review the connected transactions to ensure no possible conflict of interests and in compliance with the Securities and Exchange Acts. The Company also has the policy that a director and an executive shall report his interest or a related person's interest which may cause conflicts of interest and the policy to require the Board to approve the major transactions. In 2016, the Company's business transactions with related parties arose in the ordinary course of business under the commercial terms and bases agreed upon between the Company and those related parties. There was no connected transactions give rise to potential conflict of interests.
- Review to ensure compliance with rules and regulations of the Securities and Exchange Commission and applicable regulatory requirements and the Board policies. The Audit Committee concludes that the Company has complied with the applicable laws, regulations and established policies.
- Recommend the appointment of the external auditors and their remuneration by giving due consideration to their experience, knowledge, ability, reliability, staff and workload, as well as the independence of auditors in performing such duties. Such auditors must be approved by the Securities and Exchange Commission (SEC). The Audit Committee has proposed to the Board to seek further approval from the shareholders' meeting. For financial year ending 31 December 2016, the Audit Committee recommended to appoint Mrs. Saifon Inkaew and/or Mrs. Sarinda Hirunprasurtwutti and/or Ms. Siriwan Suratepin of EY Office Limited as the auditors of Hana Microelectronics Public Co., Ltd. for a total remuneration of Baht 2,270,000.

The Audit Committee concludes its satisfaction with the accuracy, completeness and credibility of 2016 financial statements' preparation and reporting, the adequacy of internal control systems and risk management, the compliance with applicable laws and regulations including reasonable related party transactions. As a result, the Audit Committee concluded no significant deficiency or irregularity.

Nomination Committee Report

The Nomination Committee consists of three directors, of which two are the Independent Directors. The Committee is to assist the Board of Directors to maintain the appropriate balance of skills, knowledge, experiences, and diversity to support the Company's strategies including the clear and transparent appointment process for directors. The Committee is responsible for selection and screening of candidate's qualifications and proposing the suitable candidates to the Board. The Board subsequently proposes to the shareholders' meeting for approval according to the nomination processes.

In 2016, the Committee held 3 meetings and the meeting attendance of each director is as follows.

Committee	Meeting Attendance
1. Mr. Yingsak Jenratha, Chairman	3 of 3 times
2. Mrs. Salakchitt Preedaporn	3 of 3 times
3. Mr. Richard David Han	3 of 3 times

Mr. Bancha Tarnprakorn, an Independent Director and the Chairman of the Board and Audit Committee had submitted the resignation letter to the Board Meeting on 10 November 2016 to end his tenure by the end of 2016. Therefore, the Nomination Committee has reviewed and evaluated the candidates who meet the key skills, knowledge, personal contributes, suitably independent qualification and the needs of the business and the Board. On the completion of the process, the Board agreed to appoint Mr. John Thompson as recommended by the Committee to be the new Independent Director and the Chairman of the Board and the Chairman of Audit Committee effective from 1 January 2017 onwards.

In respect of the candidate nominations for new director appointments in the shareholders' meeting in 2017, the Company invited to shareholders to propose candidates for election to the Board. The policies and procedures to allow shareholders to propose candidates for the election of the Board are posted on the Company's website. However, there were no proposed candidates to the Committee from the shareholders in previous year. Therefore, the Nomination Committee reviewed those directors whose term expired by rotation in accordance with the Company's Articles of Association. The Committee has considered that those directors can continue to make further contribution to the Board and the Company.

The Nomination Committee believes the candidate nomination for director appointment process is proper and transparent and in compliance of its charter.

Mr. Yingsak Jenratha

Chairman of Nomination Committee

Corporate Governance Committee Report

The Corporate Governance Committee consists of three directors, of which two are the Independent Directors. The Corporate Governance Committee has performed its responsibilities in compliance with the Corporate Governance Committee Charter approved by the Board of Directors.

In 2016, the Committee held 1 meeting and the meeting attendance of each committee is as follows.

Committee	Meeting Attendance
1. Mr. Terrence Philip Weir, Chairman	1 of 1 time
2. Mrs. Salakchitt Preedaporn	1 of 1 time
3. Mr. Yingsak Jenratha	1 of 1 time

The Committee reviewed the corporate governance policy and its related policies to ensure the policy updated and in line with the international standards, laws, criteria, rules and regulations as well as reviewed the compliance and proposed recommendations including conducted corporate governance self-assessment with related checklists of Thai Institute of Directors Association (IOD), the Stock Exchange of Thailand, the Office of the Securities and Exchange Commission and the Thai Investors Association.

From our continuous implementation and improvement of good corporate governance, the Company was assessed with “excellent” recognition level (5 stars) on corporate governance of Thai listed companies. The Company was also assessed with “very good” level on quality on arrangement of Annual General Meeting of Shareholders in 2016 and received the honor of information disclosure of a company listed on the Stock Exchange of Thailand and the equality of shareholders under the AGM Checklist assessment program evaluated by Thai Investors Association with the score of 100% for the fifth consecutive year.

The Committee believes that the implementation of good corporate governance with continuous development shape the growth and the future of the Company and long term sustainability to our stakeholders.

Management Discussion and Analysis

Overall Group Performance

Hana Microelectronics Group 'Hana' Sales Revenue was similar year on year, at THB 20.6 billion in year 2016 similar to THB 20.5 billion in year 2015. Sales Revenue in USD terms decreased by 3% to USD 581 million in 2016 from USD 599 million in 2015. Operating profits decreased 9% to THB 1,969 million Baht in 2016 from THB 2,161 million Baht in 2015. Operating profits decreased 12% in USD terms to USD 56 million in 2016 from USD 63 million in 2015.

Net Profit increased by 2% to THB 2,105 million in 2016 from THB 2,066 million in 2015. THB 340 million positive change in foreign exchange gain (loss) offset the lower operating profits.

Past Performance Analysis

Revenue Analysis

Group Sales were similar in 2016 at THB 20,523 million from THB 20,521 million in 2015 with markets following a similar trend during the year as in 2015. First half of 2016 was generally weaker but stronger in the second half of the year, particularly for Q4 of both 2015 and 2016. USD sales were 3% lower in 2016 at USD 581 million from USD 599 million in 2015 as the average THB/USD exchange rate weakened 3% to THB/USD 35.30 in 2016 from THB/USD 34.25 in 2015.

The Microelectronics divisions' sales revenue decreased 12% [-10% THB] in 2016 over 2015. The microelectronics operation in Lamphun sales decreased 13% [-11% in THB terms] and JXG decreased by 10% [-7% in THB terms] in 2016. In 2016 IC assembly sales overall increased by 4% in USD terms [+8% in THB terms]. Specifically, IC AYT sales increased 8% [+11% in THB terms], and IC JXG USD sales decreased by 16% [-14% in THB terms]. Hana Microdisplay Technologies "HMT", sales increased 200% [+209% THB] for the year.

The annual sales split was:

	2016	2015	2014
PCBA (Thailand)	38%	42%	47%
PCBA (China)	18%	19%	20%
PCBA (Cambodia)	0%	0%	0%
IC (Thailand)	34%	31%	26%
IC (China)	5%	6%	6%
HMT (U.S.A.)	5%	2%	1%
	100%	100%	100%

Gross Profit / Cost of Sales Analysis and Sales and Administration Analysis

Gross Profit decreased by THB 155 million with the gross margin being 14% in 2016 down 1% from 15% in 2015, due to lower product prices in both PCBA and IC divisions.

Management Discussion and Analysis

Operating Profit Analysis

The Operating profit margin also reduced by 1% to 10% in 2016 from 11% in 2015. SGA expenses increased by 5% [THB 53 million] due to the opening of new plants in Lamphun (Sahaphat Industrial Park) and Cambodia (Koh Kong).

Payout Analysis

For the year 2016 the Company paid an interim dividend of THB 805 million in Q4/16.

For the year 2015 the Company paid full dividends of THB 1,610 million (THB 2.00/share). An interim dividend paid of THB 805 million in Q4/15 and the final dividend of THB 805 million in Q2/16.

For the year 2014 the Company paid full dividends of THB 1,610 million (THB 2.00/share). An interim dividend paid of THB 805 million in Q4/14 and the final dividend of THB 805 million in Q2/15.

The final dividend is normally announced in the Board meeting in February of the following year for approval in the annual general meeting in April and paid out in May.

Financial Status

The group currently has no interest bearing debt. Cash reserves and financial investments at the 31st December, 2016 were THB 9.9 billion up from 31st December, 2015 were THB 9.1 billion.

Asset Quality

Accounts Receivable

Most of customers are well known and have good reputation in the IC, and electronics industry. Provision is made of amounts outstanding over 90 days and amounts which the management believe may be doubtful.

(Thousand Baht)

Trade Receivables	2016	2015	2014
Less than 3 months	3,404,803	3,110,049	3,196,839
3 - 6 months	18,549	61,075	24,772
6 - 12 months	26,032	2,511	7,732
More than 12 months	4,443	1,306	2,024
Total accounts receivable - other companies	3,453,827	3,174,941	3,231,367
Less : Allowance for doubtful accounts	(19,855)	(24,245)	(24,410)
	3,433,972	3,150,696	3,206,957

Management Discussion and Analysis

Inventory

In general, Hana's production is based on clients' order, consequently, the majority of inventory are raw materials, expendable tools and work in process with little finished goods pending for customer delivery.

The group companies normally write-off out-of-date inventory, and make provision for aged inventory and depletion in the value of fixed assets, if material, each quarter.

Inventory day were 73 days in 2016, 70 days in 2015 and 61 days in 2014

Liquidity

The group has THB 9.9 billion in cash and financial investments with no interest bearing debt. Liquidity ratios are high at over 3 times current liabilities. Operating Cashflow (EBITDA) was 5% lower in 2016 due to the lower operating profit in PCBA division in 2016.

EBITDA at THB 3.1 billion in 2016 and 3.3 billion in 2015 and THB 3.2 billion in 2014.

Cash and financial investments in 2016 increased by THB 0.8 billion to THB 9.9 billion, due to EBITDA 3.1 billion less final dividend THB 0.8 billion 2015 paid in Q216, interim dividend Q416 THB 0.8 billion, capital expenditure THB 0.9 billion, decrease in working capital of THB +0.2 billion.

Cash and financial investments in 2015 increased by THB 0.5 billion to THB 9.1 billion, due to EBITDA 3.3 billion less final dividend THB 0.8 billion 2014 paid in Q215, interim dividend Q415 THB 0.8 billion, capital expenditure THB 1.6 billion, decrease in working capital of THB +0.4 billion.

Cash and financial investments in 2014 increased by THB 2.0 billion to THB 8.3 billion, due to EBITDA 3.2 billion less final dividend THB 0.8 billion, interim dividend Q414 THB 0.8 billion, capital expenditure THB 0.9 billion, insurance proceeds of THB 1.3 billion.

Capital Expenditure

Net Capital Expenditure was THB 801 million in 2016, THB 1,583 million in 2015 and THB 854 million in 2014. Capital Expenditure was higher in 2015 due to the higher capital expenditure from Ayutthaya plant compared to recent years after the impact of the flood in 2011 and completion of the building construction in Cambodia.

Generally, capital expenditure for production equipment will follow the increase in sales, particularly in the IC division. However, there is a 3 to 6 month time lag due to the ordering lead time. Plant expansion will depend on the current building utilisation and lead time to construct new plant or expand in an existing plant.

Source of Financial Capital

As the group has no interest bearing debt and operating working capital is positive the group's funding is from the shareholders equity.

Management Discussion and Analysis

Major Factors which could have an Impact on the Company's Performance

The Company business is that of an electronics manufacturing service company. The Company manufactures products on behalf of its customers for shipment to them or their customers. Therefore, the Company's performance is mostly affected by its ability to win and retain business from the existing and new customers. In turn, customer demand is affected by world economic growth and the customer's sales growth.

The groups sales revenue are in foreign currency (primarily USD) and USD currency costs are approximately 60% percent of sales revenues. The Group operating profit sensitivity to change in the Thai Baht/USD and Chinese CNY/USD exchange rates is currently about Baht 200m per quarter for every 10% change in the average Baht/USD and CNY/USD rates (i.e. $(1 - 0.60) \times \text{Sales Revenue} \times 10\%$).

Out of the groups foreign exchange exposure, USD 140 million is hedged, Foreign exchange contracts are used to buy THB and Sell USD on a rolling 3 or 6 months basis.

Whilst the book value of the offshore companies are represented in foreign currency, the effect of the change in the exchange rate is shown by the movement of the foreign currency 'Translation Adjustment' in the shareholders funds section of the balance sheet. There is no cash affect concerning its movement.

For Hana being an export group of Companies the currency movements cause volatility in earnings due to effects on the operating margins and also inventory valuations (which the management report each quarter when there is a material effect on the profits) and margins.

Foreign Exchange Rates

The THB/USD currency movements reflected the economic trends in emerging markets and commodities during period. The average rate for 2016 of THB/USD 35.30 was 3% weaker than the THB/USD 34.25 in 2015 which was 5% weaker than the THB/USD 32.48 in 2014.

Exceptional Items

There were no Exceptional Items in 2016 or 2015.

Subsequent Event

None

With due recognition by the Board of Directors of Hana Microelectronics Public Company Limited of the various risk factors posing as possible threats to the Company's business operations, the Board therefore assigned the Risk Management Committee to be responsible for the supervision of the organization's risk management practices in a systematic manner.

The Risk Management Committee has formulated risk management policies as follows:

1. To enable the Company to manage any probable risk in an efficient manner, with such management procedures implemented in a sound and systematic manner.
2. To promote preventive risk management procedures to be carried out in a swift, transparent, accurate, and complete manner on a systematic and consistent basis.
3. To encourage and develop all employees and management members at all levels to have thorough understanding and recognition of the significance of risk management procedures, while promoting participation in said risk management system throughout the organization.
4. To facilitate risk management procedures to be implemented in an appropriate manner well conforming to the Company's mission and policy.

For such purpose, the Risk Management Committee has engaged in the evaluation and analysis of those risks possibly affecting the organization, covering both internal and external risk factors, setting priorities for the risk management plan, as well as engaging in regular follow-up on the implementation of such plans and informing the Board of such plan and potential material risk management issues.

Those risk factors likely to have impacts on the Company's operations could be summarized as follows:

1. Risk Factors which effect to the Company Group's Business

a) Business Risk

The largest risk management perceived is significant changes within our major client base which may be brought about due to any number of external factors such as a change in their ownership, or a change in their product program. Whilst Hana's key strategy is to maintain a diverse base of customers with different industry exposures; significant changes from any one of our major clients can affect the group's performance. Market conditions resulting from changes in economic growth rates of economies will also affect prices and demand for the company's services.

To minimize the impact of customer risk the Company has a broad spread of customers selling into a spread of end user markets, with the largest major customer contributing not more than 20% of the group's sales revenue.

b) Production Risk

The production risks are –

- Changes in manufacturing technology making existing equipment obsolete.
The Company minimizes this risk through regular purchases of the latest capital equipment to upgrade the Companies' manufacturing capabilities.
- A factory partial or whole destruction by fire, flood or earthquake. Whilst the Company has multiple factories there would be a loss of customers and a period of months to years to install new equipment and recover customer orders.

The Company mitigates this risk through having multiple production sites in multiple countries. The Company further reduces facility risks at each factory with numerous measures to minimize the risk of a facility being damaged by such events. The management regularly reviews and audits the measures taken to minimize fire and flood risk. Furthermore, the Company has insurance for property damage and business interruption to further mitigate the risk from facility damage. At the group's major facilities in Thailand the Company has additional flood protection to reduce the risk of damage from flood.

Risk Factors

- The Companies' ability to source suitably skilled staff sufficient direct labour. Each division has an experienced HR staff and has programs to review remuneration levels each year in comparison with the Company's competitors. The Company also has training programs and staff development programs to increase the employee skill levels.
- Material Supply Chain risks. Inability of our suppliers to deliver materials on time and in accordance with specification.
To minimize supply chain interruption, each division as experienced purchasing staff who approved by the customers for each product produced, maintain multiple sources for each raw material.

c) Management Risk

The Company employs a number of expatriate management in key positions. Whilst the company does not have any individual staff or management who are key to the survival of the business, loss of senior management and the Company's ability to replace key management could affect the Company's market value and business performance.

The Company minimizes management risk through not having key man issues and sufficient management depth to be able to continue to operate the Company in the event of management turnover. The Company also has a policy for that all senior management do not travel on the same aircraft where possible.

d) Financial Risk

Other risk factors which may affect the Company are exchange rates movements of the Thai Baht, political risk and changes in interest rates and collection of receivables. However, the Company's sales revenues and material costs are almost wholly in USD which provides a natural hedge. Capital expenditure is also in USD as the machines are mostly imported from the region.

As all the groups sales revenue are in foreign currency (primarily USD) and USD currency costs are 60% percent of sales revenues, the Group operating profit sensitivity to change in the Thai Baht/USD and Chinese CNY/USD exchange rates is currently about Baht 200m per quarter for every 10% change in the average Baht/USD and CNY/USD rates (i.e. $(1 - 0.60) \times \text{Sales Revenue} \times 10\%$).

To reduce the risk of volatile exchange rate, out of the groups foreign exchange exposure, USD 140m is hedged, Foreign exchange contracts are used to buy THB and Sell USD on a rolling 3 or 6 months basis.

The Company currently has no net interest bearing borrowings and therefore is not negatively affected by potential interest rate increases.

2. Risk Factor which effect to shareholders' investment

The Company doesn't have any significant risks for shareholders' investment. There are no conflicts of interests amongst major shareholders and no other conditions that may affect shareholders outside of normal business as the company. All shareholders have equal rights and the Company maintains good financial standing.

Report of the Board of Directors' Responsibilities for Financial Statements

The Board of Directors is responsible for the preparation of financial statements in accordance with generally accepted accounting principles and the adoption of appropriate accounting policies on a consistent basis including using judgment carefully and reasonably in preparation of financial statement. The important information is adequately disclosed in the notes to financial statement. The necessary clarification and analysis regarding the financial positions and performances of the Company and its subsidiaries have been provided for the interests of shareholders and investors.

The maintenance of the internal control system and risk management system are the responsibilities of the Board to reasonably assure that assets are safeguarded from unauthorized use or disposition and that the accounting records are sufficiently reliable to permit the preparation of financial statements that conform in all material respects with generally accepted accounting principles.

The Board of Directors has appointed an Audit Committee. The Committee meets during the year to review with management and the auditors any significant accounting, internal control, and auditing matters.

The Board is of the opinion that the financial statements of Hana Microelectronics Public Company Limited and its subsidiaries for the year ended December 2016 are materially accurate, complete, and reliable.

Mr. Bancha Tamprakorn
Chairman of the Board of Directors

Mr. Richard David Han
Executive Vice Chairman and
Chief Executive Officer

Independent Auditor's Report

To the Shareholders of Hana Microelectronics Public Company Limited

Opinion

I have audited the accompanying consolidated financial statements of Hana Microelectronics Public Company Limited and its subsidiaries (the Group), which comprise the consolidated statement of financial position as at 31 December 2016, and the related consolidated statements of income, comprehensive income, changes in shareholders' equity and cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies, and have also audited the separate financial statements of Hana Microelectronics Public Company Limited for the same period.

In my opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Hana Microelectronics Public Company Limited and its subsidiaries and of Hana Microelectronics Public Company Limited as at 31 December 2016, their financial performance and cash flows for the year then ended in accordance with Thai Financial Reporting Standards.

Basis for Opinion

I conducted my audit in accordance with Thai Standards on Auditing. My responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of my report. I am independent of the Group in accordance with the Code of Ethics for Professional Accountants as issued by the Federation of Accounting Professions under the Royal Patronage of His Majesty the King as relevant to my audit of the financial statements, and I have fulfilled my other ethical responsibilities in accordance with the Code. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

Key Audit Matters

Key audit matters are those matters that, in my professional judgement, were of most significance in my audit of the financial statements of the current period. These matters were addressed in the context of my audit of the financial statements as a whole, and in forming my opinion thereon, and I do not provide a separate opinion on these matters.

I have fulfilled the responsibilities described in the Auditor's Responsibilities for the Audit of the Financial Statements section of my report, including in relation to these matters. Accordingly, my audit included the performance of procedures designed to respond to my assessment of the risks of material misstatement of the financial statements. The results of my audit procedures, including the procedures performed to address the matters below, provide the basis for my audit opinion on the accompanying financial statements as a whole.

The key audit matters and how audit procedures respond for each matter are described below.

Revenue recognition

The majority of the Group's sales transactions are conducted with a number of major overseas customers under a variety of arrangements and conditions which is normal for the industry and as a result may impact the recognition of revenue of the Group causing risks with respect to the amount and timing of such revenue recognition.

Independent Auditor's Report

I have examined the revenue recognition of the Group by

- Assessing and testing the Group's internal controls with respect to the revenue cycle by making enquiry of responsible executives, gaining an understanding of the controls and selecting representative samples to test the operation of the designed controls.
- Applying a sampling method to select sales to assess whether revenue recognition was consistent with the conditions or arrangement made with the customers, and whether it was in compliance with the Group's policy.
- On a sampling basis, examining supporting documents for actual sales transactions occurring during the year and near the end of the accounting period.
- Requesting for confirmations of consignment inventory balances located at customers' hubs at the end of the accounting period. In addition, on a sampling basis, examining supporting documents whether the consignment inventories are correctly excluded from sales for the period.
- Reviewing of credit notes that the Group issued after the period-end.
- Performing analytical procedures of disaggregated data to detect possible irregularities in sales transactions throughout the period, particularly for accounting entries made through journal vouchers.

Inventory

Estimating the net realisable value of inventory, as disclosed in the related accounting policy in the Note 4.4 and Note 5.1 to the financial statements, is one of an area of significant management judgement, particularly with regard to the estimation of allowance for diminution in the value of slow-moving and obsolete inventory. This requires detailed analysis of the product life cycle, the competitive environment, economic circumstances and the situation within the high-technology industry. There is a risk with respect to the amount of provision set aside for diminution in the value of inventory.

I have assessed and tested the internal controls of the Group relevant to the determination of provision for diminution in the value of inventory by making enquiry of responsible executives, gaining an understanding of the controls and selecting representative samples to test the operations of the designed controls. In addition, I also assessed the method and the assumptions applied by management in determining such provision. The procedures that I performed included:

- Gaining an understanding of the basis applied in determining the provision for diminution in value of inventory and reviewing the consistency of the application of that basis, and the rationale for the recording of specific provisions.
- Comparing the inventory holding periods and inventory movements to identify product lines with indicators of lower than normal inventory turnover.
- Comparing details of sales transactions occurring after the date of the financial statements with the cost of inventory for each product line.
- Comparing historical data of actual losses on sales and write-offs of inventory during each of the previous years with the provision for diminution in value of inventory recorded at the preceding year-end.

Provision for long-term employee benefits

The valuation of long-term employee benefit obligations is one of a significant accounting estimate to the financial statements because the Group has a large number of employees and has certain schemes of defined benefit plans and other long-term employee benefit as discussed in the related accounting policy in the Note 4.12 and Note 5.3 to the financial statements. In addition, the calculation of long-term employee benefit obligations requires the management to select the calculation method and exercise a high degree of judgement in determining appropriate assumptions such as discount rates, future salary increases, mortality rates and staff turnover rates. Due to the long-term nature of these plans, such estimates are subject to significant uncertainty. There is therefore a risk with respect to the amounts of the provision for long-term employee benefits.

Independent Auditor's Report

I assessed and tested the Group's internal control with respect to the assessment of provision for long-term employee benefit by making enquiry of responsible executives, gaining an understanding of internal controls and tested the method and significant assumptions both demographic and financial aspects used by the management to calculate the long-term employee benefit obligations and considered the impact of changes in key assumptions on the valuation of long-term employee benefit obligations. In addition, I reviewed the disclosure in the notes to the financial statements with respect to the provision for long-term employee benefits.

Other Information

Management is responsible for the other information. The other information comprise the information included in annual report of the Group, but does not include the financial statements and my auditor's report thereon. The annual report of the Group is expected to be made available to me after the date of this auditor's report.

My opinion on the financial statements does not cover the other information and I do not express any form of assurance conclusion thereon.

In connection with my audit of the financial statements, my responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or my knowledge obtained in the audit or otherwise appears to be materially misstated.

When I read the annual report of the Group, if I conclude that there is a material misstatement therein, I am required to communicate the matter to those charged with governance for correction of the misstatement.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with Thai Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

My objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Thai Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Thai Standards on Auditing, I exercise professional judgement and maintain professional skepticism throughout the audit. I also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

Independent Auditor's Report

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify my opinion. My conclusions are based on the audit evidence obtained up to the date of my auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. I am responsible for the direction, supervision and performance of the group audit. I remain solely responsible for my audit opinion.

I communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during my audit.

I also provide those charged with governance with a statement that I have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on my independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, I determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. I describe these matters in my auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, I determine that a matter should not be communicated in my report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditor's report is Mrs. Saifon Inkaew.

Saifon Inkaew

Notes to consolidated financial statements

Hana Microelectronics Public Company Limited and its subsidiaries

For the year ended 31 December 2016

1. General information

Hana Microelectronics Public Company Limited (“the Company”) was incorporated as a limited company under Thai law and transformed to be a public limited company under the Public Limited Companies Act on 27 January 1993. The Company operates its business in Thailand and is principally engaged in the manufacture and trading of electronic components. The registered office of the Company is at 65/98, Soi Vibhavadi-Rangsit 64, Junction 2, Kwang Talad Bangkhen, Khet Laksi, Bangkok.

2. Basis of preparation

2.1 The financial statements have been prepared in accordance with Thai Financial Reporting Standards enunciated under the Accounting Professions Act B.E. 2547 and their presentation has been made in compliance with the stipulations of the Notification of the Department of Business Development dated 28 September 2011, issued under the Accounting Act B.E. 2543.

The financial statements in Thai language are the official statutory financial statements of the Company. The financial statements in English language have been translated from the Thai language financial statements.

The financial statements have been prepared on a historical cost basis except where otherwise disclosed in the accounting policies.

2.2 Basis of consolidation

a) The consolidated financial statements include the financial statements of Hana Microelectronics Public Company Limited (“the Company”) and the following subsidiary companies (“the subsidiaries”):

Company's name	Nature of business	Country of incorporation	Percentage of shareholding	
			2016	2015
			Percent	Percent
Held by the Company				
Hana Semiconductor (BKK) Company Limited	Holding company	Thailand	100	100
Omac Sales Limited	Purchasing of electronic components and equipment	Hong Kong	100	100
Hana Microelectronics International Company Limited	Holding company	British Virgin Islands	100	100
Hana Microelectronics Investments Company Limited	Holding company	British Virgin Islands	100	100
Hana Technologies Group Limited	Holding company	Cayman Islands	100	100
Hana Microelectronics (Cambodia) Company Limited	Manufacture and trading of electronic components	Cambodia	100	100
Hana Semiconductor (Ayutthaya) Company Limited	Manufacture and trading of electronic components	Thailand	58	58
Held through the subsidiary companies				
Hana Semiconductor International Limited	Trading of electronic components	British Virgin Islands	100	100
Hana Semiconductor Holdings Limited	Holding company	British Virgin Islands	100	100
Hana Technologies Investments Limited	Holding company	Cayman Islands	100	100
Hana Microdisplay Technologies, Inc.	Manufacture and trading of electronic components	USA	100	100
Hana Microelectronics, Inc.	Agent and customer services	USA	100	100

Hana Macao Commercial Offshore Limited	Customer services	Macao	100	100
Hana Microelectronics (Jiaxing) Company Limited	Manufacture and trading of electronic components	China	100	100
Hana Semiconductor (Ayutthaya) Company Limited	Manufacture and trading of electronic components	Thailand	42	42

Notes to consolidated financial statements

Hana Microelectronics Public Company Limited and its subsidiaries

For the year ended 31 December 2016

- b) The Company is deemed to have control over an investee or subsidiaries if it has rights, or is exposed, to variable returns from its involvement with the investee, and it has the ability to direct the activities that affect the amount of its returns.
- c) Subsidiaries are fully consolidated, being the date on which the Company obtains control, and continue to be consolidated until the date when such control ceases.
- d) The financial statements of the subsidiaries are prepared using the same significant accounting policies as the Company.
- e) The assets and liabilities in the financial statements of overseas subsidiary companies are translated into Thai Baht using the exchange rate prevailing on the end of reporting period, and revenues and expenses translated using monthly average exchange rates. The resulting differences are shown under the caption of "Exchange differences on translation of financial statements in foreign currency" in the statements of changes in shareholders' equity.
- f) Material balances and transactions between the Company and its subsidiary companies have been eliminated from the consolidated financial statements.

2.3 The separate financial statements present investments in subsidiaries under the cost method.

3. New financial reporting standards

(a) Financial reporting standards that became effective in the current year

During the year, the Company and subsidiaries have adopted the revised (revised 2015) and new financial reporting standards and accounting treatment guidance issued by the Federation of Accounting Professions which become effective for fiscal years beginning on or after 1 January 2016. These financial reporting standards were aimed at alignment with the corresponding International Financial Reporting Standards, with most of the changes directed towards revision of wording and terminology, and provision of interpretations and accounting guidance to users of standards. The adoption of these financial reporting standards does not have any significant impact on the Company and its subsidiaries' financial statements.

(b) Financial reporting standards that will become effective in the future

During the current year, the Federation of Accounting Professions issued a number of the revised financial reporting standards and interpretations (revised 2016) and new accounting treatment guidance which is effective for fiscal years beginning on or after 1 January 2017. These financial reporting standards were aimed at alignment with the corresponding International Financial Reporting Standards with most of the changes directed towards revision of wording and terminology, and provision of interpretations and accounting guidance to users of standards.

The management of the Company and its subsidiaries believe that the revised financial reporting standards and interpretations and new accounting treatment guidance will not have any significant impact on the financial statements when they are initially applied. However, one standard involves changes to key principles, which are summarised below.

TAS 27 (revised 2016) Separate Financial Statements

This revised standard stipulates an additional option to account for investments in subsidiaries, joint ventures and associates in separate financial statements under the equity method, as described in TAS 28 (revised 2016) Investments in Associates and Joint Ventures. However, the entity is to apply the same accounting treatment for each category of investment. If an entity elects to account for such investments using the equity method in the separate financial statements, it has to adjust the transaction retrospectively.

Notes to consolidated financial statements

Hana Microelectronics Public Company Limited and its subsidiaries

For the year ended 31 December 2016

At present, the management of the Company and its subsidiaries is evaluating the impact of this standard to the financial statements in the year when it is adopted.

4. Significant accounting policies

4.1 Revenue recognition

Sales of goods

Sales of goods are recognised when the significant risks and rewards of ownership of the goods have passed to the buyer. Sales are the invoiced value, excluding value added tax, of goods supplied after deducting discounts and allowances.

Interest income

Interest income is recognised on an accrual basis based on the effective interest rate.

Dividends

Dividends are recognised when the right to receive the dividends is established.

4.2 Cash and cash equivalents

Cash and cash equivalents consist of cash in hand and at banks, and all highly liquid investments with an original maturity of three months or less and not subject to withdrawal restrictions.

4.3 Trade accounts receivable

Trade accounts receivable are stated at the net realisable value. Allowance for doubtful accounts is provided for the estimated losses that may be incurred in collection of receivables. The allowance is generally based on collection experiences and analysis of debt aging.

4.4 Inventories

Raw materials, work in process, and finished goods are valued at the lower of cost (under weighted average method) and net realisable value. The cost of inventories is measured using the standard cost method, which approximates actual cost. Cost of finished goods and work in process include direct materials, direct labour, and factory overheads.

Allowance for diminution in inventory value is set up for obsolete, slow-moving or deteriorated inventories.

4.5 Investments

- a) Investments in securities held for trading of a subsidiary are stated at fair value. Changes in fair value of these securities are recorded in profit or loss.
- b) Investments in available-for-sale securities of a subsidiary are stated at fair value. Changes in the fair value of these securities are recorded in other comprehensive income, and will be recorded in profit or loss when securities are sold.
- c) Investments in subsidiaries are accounted for in the separate financial statements using the cost method.

The fair value of marketable securities is based on the latest bid price of the last working day of the year as quoted on the Stock Exchanges in which the securities are issued. The fair value of debt instruments is determined based on yield rate quoted by the oversea banks.

The weighted average method is used for computation of the cost of investments.

Notes to consolidated financial statements

Hana Microelectronics Public Company Limited and its subsidiaries

For the year ended 31 December 2016

In the event the Company and its subsidiaries reclassify investments from one type to another, such investments will be readjusted to their fair value as at the reclassification date. The differences between the carrying amount of the investments and the fair value on the date of reclassification are recorded in profit or loss or recorded as other components of shareholders' equity, depending on the type of investment which is reclassified.

On disposal of an investment, the difference between net disposal proceeds and the carrying amount of the investment is recognised as income or expenses in profit or loss.

4.6 Investment properties

Investment properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are stated at cost less accumulated depreciation and allowance for loss on impairment (if any).

No depreciation is provided on investment property in land.

4.7 Property, plant and equipment and depreciation

Land is stated at cost. Buildings and equipment are stated at cost less accumulated depreciation and allowance for loss on impairment of assets (if any).

Depreciation of plant and equipment is calculated by reference to their costs on a straight-line basis over the following estimated useful lives:

Leasehold improvements	Period of lease
Buildings	20 - 50 years
Installation	3 - 10 years
Other assets	3 - 20 years

Depreciation is included in determining income.

No depreciation is provided on land, construction in progress and machinery under installation.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on disposal of an asset is included in profit or loss when the asset is derecognised.

4.8 Intangible assets

Intangible assets are carried at cost less any accumulated amortisation and any accumulated impairment losses (if any).

Intangible assets with finite lives are amortised on a systematic basis over the economic useful life and tested for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method of such intangible assets are reviewed at least at each financial year end. The amortisation expense is charged to profit or loss.

The useful lives of the intangible assets is 5 - 10 years.

4.9 Related party transactions

Related parties comprise individuals or enterprises that control, or are controlled by, the Company, whether directly or indirectly, or which are under common control with the Company.

Notes to consolidated financial statements

Hana Microelectronics Public Company Limited and its subsidiaries

For the year ended 31 December 2016

They also include associated companies, and individuals or enterprises which directly or indirectly own a voting interest in the Company that gives them significant influence over the Company, key management personnel, directors, and officers with authority in the planning and direction of the Company's operations.

4.10 Foreign currencies

The consolidated and separate financial statements are presented in Baht, which is also the Company's functional currency. Items of each entity included in the consolidated financial statements are measured using the functional currency of that entity.

Transactions in foreign currencies are translated into Baht at the exchange rate ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are translated into Baht at the exchange rate ruling at the end of reporting period.

Gains and losses on exchange are included in determining income.

4.11 Impairment of assets

At the end of each reporting period, the Company and its subsidiaries perform impairment reviews in respect of the property, plant and equipment and other intangible assets whenever events or changes in circumstances indicate that an asset may be impaired. An impairment loss is recognised when the recoverable amount of an asset, which is the higher of the asset's fair value less costs to sell and its value in use, is less than the carrying amount.

An impairment loss is recognised in profit or loss.

In the assessment of asset impairment if there is any indication that previously recognised impairment losses may no longer exist or may have decreased, the Company and its subsidiaries estimate the asset's recoverable amount. A previously recognised impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognised. The increased carrying amount of the asset attributable to a reversal of an impairment loss shall not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset in prior years. Such reversal is recognised in profit or loss.

4.12 Employee benefits

Short-term employee benefits

Salaries, wages, bonuses and contributions to the social security fund are recognised as expenses when incurred.

Post-employment benefits

Defined contribution plans

The Company, the subsidiaries and their employees have jointly established a provident fund. The fund is monthly contributed to by the employees, the Company and the subsidiaries. The fund's assets are held in a separate trust fund and the Company and the subsidiaries' contributions are recognised as expenses when incurred.

Defined benefit plans

The Company and its subsidiaries have obligations in respect of the severance payments they must make to employees upon retirement under labor law. The Company and its subsidiaries treat these severance payment obligations as a defined benefit plan.

Notes to consolidated financial statements

Hana Microelectronics Public Company Limited and its subsidiaries

For the year ended 31 December 2016

The obligation under the defined benefit plan is determined based on actuarial techniques, using the projected unit credit method.

Actuarial gains and losses arising from post-employment benefits are recognised immediately in other comprehensive income.

Provision for vacation

The Company and its subsidiaries have set up provision for vacation which is calculated in accordance with the Company's policy and formula, taking into consideration the employee's salary, the number of service years and the unused vacation days.

4.13 Provisions

Provisions are recognised when the Company and the subsidiaries have a present obligation as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

Provision for product warranty

The subsidiaries record provision for product warranty, which is estimated by reference to obligation for product warranty under manufacturing contract.

4.14 Income tax

Income tax expense represents the sum of corporate income tax currently payable and deferred tax.

Current tax

Current income tax is provided in the accounts at the amount expected to be paid to the taxation authorities, based on taxable profits determined in accordance with tax legislation.

Deferred tax

Deferred income tax is provided on temporary differences between the tax bases of assets and liabilities and their carrying amounts at the end of each reporting period, using the tax rates enacted at the end of the reporting period.

The Company and its subsidiaries recognise deferred tax liabilities for all taxable temporary differences while they recognise deferred tax assets for all deductible temporary differences and tax losses carried forward to the extent that it is probable that future taxable profit will be available against which such deductible temporary differences and tax losses carried forward can be utilised.

At each reporting date, the Company and its subsidiaries review and reduce the carrying amount of deferred tax assets to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised.

The Company and its subsidiaries record deferred tax directly to shareholders' equity if the tax relates to items that are recorded directly to shareholders' equity.

4.15 Derivatives

The Company and its subsidiaries have no policy to speculate in or engage in the trading of any financial derivative instruments, other than for managing the foreign currency risk. The subsidiaries have entered into forward exchange contracts to mitigate such exposure.

Notes to consolidated financial statements

Hana Microelectronics Public Company Limited and its subsidiaries

For the year ended 31 December 2016

Such derivative financial instruments are initially recognised at fair value on the date on which a derivative contract is entered into and subsequently remeasured at fair value, which is determined by reliable financial institutions. Gains on losses arising from changes in the fair value of the contracts are recognised in profit or loss.

4.16 Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between buyer and seller (market participants) at the measurement date. The Company and its subsidiaries apply a quoted market price in an active market to measure their assets and liabilities that are required to be measured at fair value by relevant financial reporting standards. Except in case of no active market of an identical asset or liability or when a quoted market price is not available, the Company and its subsidiaries measure fair value using valuation technique that are appropriate in the circumstances and maximises the use of relevant observable inputs related to assets and liabilities that are required to be measured at fair value.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy into three levels based on categorise of input to be used in fair value measurement as follows:

Level 1 - Use of quoted market prices in an observable active market for such assets or liabilities

Level 2 - Use of other observable inputs for such assets or liabilities, whether directly or indirectly

Level 3 - Use of unobservable inputs such as estimates of future cash flows

At the end of each reporting period, the Company and its subsidiaries determine whether transfers have occurred between levels within the fair value hierarchy for assets and liabilities held at the end of the reporting period that are measured at fair value on a recurring basis.

5. Significant accounting judgements and estimates

The preparation of financial statements in conformity with financial reporting standards at times requires management to make subjective judgements and estimates regarding matters that are inherently uncertain. These judgements and estimates affect reported amounts and disclosures; and actual results could differ from these estimates. Significant judgements and estimates are as follows:

5.1 Allowance for diminution in inventory value

In determining an allowance for diminution in inventory value, the management needs to make judgement in estimating loss from obsolescence and slow moving, and the reduction of net realisable value of inventories.

5.2 Property plant and equipment and depreciation

In determining depreciation of plant and equipment, the management is required to make estimates of the useful lives and residual values of the plant and equipment and to review estimate useful lives and residual values when there are any changes.

In addition, the management is required to review property, plant and equipment for impairment on a periodical basis and record impairment losses in the period when it is determined that their recoverable amount is lower than the carrying cost. This requires judgements regarding forecast of future revenues and expenses relating to the assets subject to the review.

Notes to consolidated financial statements

Hana Microelectronics Public Company Limited and its subsidiaries

For the year ended 31 December 2016

5.3 Post-employment benefits under defined benefit plans

The obligation under the defined benefit plan is determined based on actuarial techniques. Such determination is made based on various assumptions, including discount rate, future salary increase rate, mortality rate and staff turnover rate.

5.4 Fair value of financial instruments

In determining the fair value of financial instruments recognised in the statement of financial position that are not actively traded and for which quoted market prices are not readily available, the management exercise judgement, using a variety of valuation techniques and models. The input to these models is taken from observable markets, and includes consideration of credit risk (bank and counterparty, both) liquidity, correlation and longer-term volatility of financial instruments. Change in assumptions about these factors could affect the fair value recognised in the statement of financial position and disclosures of fair value hierarchy.

6. Cash and cash equivalents

Cash and cash equivalents as at 31 December 2016 and 2015 as reflected in the statements of financial position and cash flows consist of the following:

(Unit: Thousand Baht)

	Consolidated financial statements		Separate financial statements	
	2016	2015	2016	2015
Cash	23,362	1,270	461	318
Bank deposits	2,795,837	2,533,890	433,533	205,849
Fixed deposits with maturity not over 3 months	3,528,396	2,396,922	530,000	750,000
Bills of exchange	-	494,412	-	-
Total cash and cash equivalents	6,347,595	5,426,494	963,994	956,167

As at 31 December 2016, bank deposits in savings accounts, fixed deposits and bills of exchange carried interests between 0.001 and 1.550 percent per annum (2015: 0.001 and 1.550 percent per annum).

7. Related party transactions

During the years, the Company had significant business transactions with related parties. Such transactions, which are summarised below, arose in the ordinary course of business and were concluded on commercial terms and bases agreed upon between the Company and those related parties.

Notes to consolidated financial statements

Hana Microelectronics Public Company Limited and its subsidiaries

For the year ended 31 December 2016

8.1 Securities held for trading

Since the third quarter of 2008, Hana Microelectronics International Company Limited, an overseas subsidiary company, has invested in mutual fund of a company listed on the Stock Exchange of Cayman Island, bond investment trust of an overseas bank, and during 2012 additionally invested in interest bearing unsecured subordinated notes of a company listed on the Stock Exchange of Australia. The subsidiary classified these investments as held for trading purpose. During the current year, the subsidiary additionally invested in mutual fund (fixed maturity bond fund) of a company listed on the Stock Exchange of Luxembourg through an overseas bank and disposed the mutual fund of a company listed on the Stock Exchange of Cayman Island, resulting in gain of USD 0.01 million or equivalent to approximately Baht 0.38 million.

As at 31 December 2016, the subsidiary had assessed the fair value of the mutual fund and the interest bearing unsecured subordinated notes by referring to the latest bid prices as quoted on the Stock Exchanges and the fair value of the bond investment trust by referring to the value quoted by the bank, in which the fair value had decreased equivalent to approximately Baht 3.58 million (2015: increased by approximately Baht 0.57 million). The changes in the fair value of these investments were recognised in the income statement.

8.2 Available-for-sale securities

In addition, this subsidiary has invested in private corporate bonds issued by various companies listed on the overseas Stock Exchanges and local and overseas quoted bonds through the three overseas banks. These investments are classified as available-for-sale investments. During the current year, the subsidiary additionally invested in the overseas listed corporate bonds and the overseas quoted bonds, disposed and redeemed some of the corporate bonds and overseas quoted bonds, resulting in net loss of USD 0.61 million or equivalent to approximately Baht 21.47 million (2015: net gain of USD 0.23 million or equivalent to approximately Baht 8.41 million).

As at 31 December 2016, the subsidiary had assessed the fair value of the bonds by referring to the values quoted by the banks in which there was a revaluation surplus on the fair value of USD 2.93 million or equivalent to approximately Baht 104.91 million (2015: deficit on the fair value of USD 1.95 million or equivalent to approximately Baht 70.37 million). The subsidiary recognised gain on change in fair value of such bonds approximately Baht 175.28 million as shown as a separate item in the statement of comprehensive income (2015: recognised loss on change in fair value of such bonds Baht 229.24 million).

8.3 Investment in fixed deposit with financial institution

During the second quarter of 2014, an overseas subsidiary had invested in a structured deposit with financial institution amounting to CNY 62.4 million for a period of 2 years, with the maturity date on 25 April 2016. The parties mutually agreed that the subsidiary would receive interest income approximately CNY 6.6 million at the maturity date under the condition that CNYmat (the mid spot exchange rate for USDCNH) would be less than or equal to CNY 6.0528 per USD on any agreed determination date otherwise, zero. As at 31 December 2015, the investment in fixed deposit was approximately Baht 345.9 million. Subsequently, on 25 April 2016, the structured deposit reached its maturity date, however, the CNYmat of all agreed determination dates over CNY 6.0528 per USD. Thus, the subsidiary did not receive interest income at the maturity date.

19. Provision for long-term employee benefits

Provision for long-term employee benefits, which represents compensation payable to employees after they retire, was as follows:

(Unit: Thousand Baht)

	Consolidated financial statements		Separate financial statements	
	2016	2015	2016	2015
Provision for long-term employee benefits at beginning of year	534,440	515,862	279,200	259,352
Included in profit or loss:				
Current service cost	33,143	47,677	17,864	25,435
Interest cost	13,578	14,828	6,858	7,446
Included in other comprehensive income:				
Actuarial (gain) loss arising from				
Demographic assumptions changes	(70,777)	(43,826)	(28,424)	(19,634)
Financial assumptions changes	(24,417)	23,203	(27,609)	15,137
Experience adjustments	(18,444)	(15,836)	3,426	(3,907)
Benefits paid during the year	(12,644)	(7,468)	(11,401)	(4,629)
Provision for long-term employee benefits at end of year	454,879	534,440	239,914	279,200

Line items in profit or loss under which long-term employee benefit expenses are recognised are as follows:

(Unit: Thousand Baht)

	Consolidated financial statements		Separate financial statements	
	2016	2015	2016	2015
Cost of sales	10,906	13,701	18,648	8,400
Selling and administrative expenses	35,815	48,804	6,074	24,481
Total expenses recognised in profit or loss	46,721	62,505	24,722	32,881

The Company and its subsidiary expect to pay Baht 12.7 million of long-term employee benefits during the next year (Separate financial statements: Baht 12.2 million) (2015: Baht 11.0 million, separate financial statements: Baht 9.4 million).

As at 31 December 2016, the weighted average duration of the liabilities for long-term employee benefit is 15 years (Separate financial statements: 16 years) (2015: 19 years, separate financial statements: 20 years).

Notes to consolidated financial statements

Hana Microelectronics Public Company Limited and its subsidiaries

For the year ended 31 December 2016

Significant actuarial assumptions are summarised below:

	Consolidated financial statements		Separate financial statements	
	2016	2015	2016	2015
	(% per annum)	(% per annum)	(% per annum)	(% per annum)
Discount rate	3.4%	2.8%	3.4%	2.8%
Future salary increase rate (depending on age)	5.0%	5.0%	5.0%	5.0%
Staff turnover rate	10.1% - 32.7%	8.5% - 39.9%	10.1% - 28.4%	8.5% - 26.8%

The result of sensitivity analysis for significant assumptions that affect the present value of the long-term employee benefit obligation as at 31 December 2016 and 2015 are summarised below:

(Unit: Million Baht)

	31 December 2016			
	Consolidated financial statements		Separate financial statements	
	Increase 1%	Decrease 1%	Increase 1%	Decrease 1%

	Consolidated financial statements		Separate financial statements	
	Increase 1%	Decrease 1%	Increase 1%	Decrease 1%
Discount rate	(78)	102	(41)	58
Salary increase rate	100	(78)	57	(42)
	Increase* 2.1% and 12.5%	Decrease* 2.1% and 12.5%	Increase* 2.1% and 12.5%	Decrease* 2.1% and 12.5%
Turnover rate	(24)	32	(12)	21

* (2.1% for monthly and 12.5% for daily staff)

20. Statutory reserve

Pursuant to Section 116 of the Public Limited Companies Act B.E. 2535, the Company is required to set aside to a statutory reserve at least 5 percent of its net income after deducting accumulated deficit brought forward (if any), until the reserve reaches 10 percent of the registered capital. The statutory reserve is not available for dividend distribution.

Notes to consolidated financial statements

Hana Microelectronics Public Company Limited and its subsidiaries

For the year ended 31 December 2016

21. Expenses by nature

Significant expenses classified by nature are as follows:

(Unit: Thousand Baht)

	Consolidated financial statements		Separate financial statements	
	2016	2015	2016	2015
Raw materials and consumables used	13,069,503	12,257,549	5,143,270	5,553,521
Changes in inventories of finished goods and work in process	(185,461)	(41,552)	(61,967)	11,592
Salaries and wages and other employee benefits	3,450,794	3,241,550	1,267,104	1,234,227
Management benefit expenses	84,154	83,050	14,348	15,654
Depreciation and amortisation expenses	1,179,999	1,168,153	355,172	333,240
Loss on exchange	-	261,770	-	-

22. Income tax

Income tax expenses for the years ended 31 December 2016 and 2015 are made up as follows:

(Unit: Thousand Baht)

	Consolidated financial statements		Separate financial statements	
	2016	2015	2016	2015
Current income tax:				
Current income tax charge	77,201	44,168	14,441	13,224
Adjustment in respect of income tax of previous year	62,360	(1,011)	10,327	(1,011)
Deferred tax:				
Relating to origination and reversal of temporary differences	(2,345)	4,091	(1,915)	4,453
Income tax expense reported in the statement of income	137,216	47,248	22,853	16,666

The amounts of income tax relating to each component of other comprehensive income for the years ended 31 December 2016 and 2015 are as follows:

(Unit: Thousand Baht)

	Consolidated financial statements		Separate financial statements	
	2016	2015	2016	2015
Deferred tax relating to (gain) loss on actuarial gains and losses	613	44	613	44
Deferred tax relating to exchange differences on translation of financial statements in foreign currency	652	(452)	-	-
	1,265	(408)	613	44

Notes to consolidated financial statements

Hana Microelectronics Public Company Limited and its subsidiaries

For the year ended 31 December 2016

The reconciliation between accounting profit and income tax expenses is shown below.

(Unit: Thousand Baht)

	Consolidated financial statements		Separate financial statements	
	2016	2015	2016	2015

Total	(2,089)	(1,660)	-	-
Deferred tax assets - net	13,543	12,463	4,953	3,651

Notes to consolidated financial statements

Hana Microelectronics Public Company Limited and its subsidiaries

For the year ended 31 December 2016

As at 31 December 2016, the subsidiaries had deductible temporary differences and unused tax losses totaling Baht 294 million (2015: Baht 506 million), on which deferred tax assets have not been recognised as the subsidiaries believe future taxable profits may not be sufficient to allow utilisation of the temporary differences and unused tax losses. The unused tax losses will expire by the year 2034.

23. Earnings per share

Basic earnings per share is calculated by dividing profit for the year attributable to equity holders of the Company (excluding other comprehensive income) by the weighted average number of ordinary shares in issue during the year.

24. Promotional privileges

The Company and its subsidiaries have received promotional privileges under the Investment Promotion Act B.E. 2520 as approved by the Board of Investment. Subject to certain imposed conditions, significant promotional privileges received with respect to tax are as follows:

Particulars	The Company

Total sales	7,909,720	8,710,275	11,400	13,193	7,921,120	8,723,468

25. Operating segments

Operating segment information is reported in a manner consistent with the internal reports that are regularly reviewed by the chief operating decision maker in order to make decisions about the allocation of resources to the segment and assess its performance.

For management purposes, the Company and its subsidiaries are organised into business units based on their products and have two reportable segments as follows:

1. The Printed Circuit Board Assembly (PCBA) Segment, which produces and sells Printed Circuit Board Assembly (PCBA).
2. The Integrated Circuit (IC) Segment, which produces and sells Integrated Circuit (IC).

No operating segments have been aggregated to from the above reportable operating segments.

The chief operating decision maker monitors the operating results of the business units separately for the purpose of making decisions about resource allocation and assessing performance. Segment performance is measured based on operating profit or loss and total assets and on a basis consistent with that used to measure operating profit or loss and total assets in the financial statements.

The basis of accounting for any transactions between reportable segments is consistent with that for third party transactions.

Notes to consolidated financial statements

Hana Microelectronics Public Company Limited and its subsidiaries

For the year ended 31 December 2016

The following tables present revenue, profit and total assets information regarding the Company and its subsidiaries' operating segments for the year ended 31 December 2016 and 2015, respectively.

(Unit: Million Baht)

Year ended 31 December 2016	Printed Circuit Board Assembly (PCBA)	Integrated Circuit (IC)	Other	Total reportable segments	Eliminations	Total

Notes to consolidated financial statements

Hana Microelectronics Public Company Limited and its subsidiaries

For the year ended 31 December 2016

28. Commitments and contingent liabilities

28.1 Capital commitments

As at 31 December 2016, the Company and its subsidiaries had capital commitments relating to acquisitions of machinery totaling USD 2.3 million or equivalent to Baht 80 million (2015: USD 3.6 million or equivalent to Baht 130 million) and the Company only of approximately Baht 54 million (2015: Baht 104 million).

28.2 Operating lease commitments

The Company and its subsidiaries have entered into the lease agreements in respect of the lease of equipment, lease of land and the lease of building, factory and services. The terms of the agreements are generally between 1 and 3 years.

Future minimum lease payments required under these operating leases contracts were as follows.

(Unit: Million Baht)

	Consolidated financial statements		Separate financial statements	
	2016	2015	2016	2015
Payable:				
In up to 1 year	17.1	10.2	0.6	0.2
In over 1 and up to 3 year	2.3	8.7	0.2	0.3

28.3 Marketing supportive service agreement

Since the year 2001, the Company and three subsidiary companies entered into marketing supportive service agreement with an overseas subsidiary company. Under that agreement, the Company and the three subsidiary companies have to pay service fees to that subsidiary company at the rates stipulated in the agreement.

28.4 Sale representative agreements

Since the year 2015, an overseas subsidiary entered into sale representative agreement with an unrelated company with the annual service fees of approximately USD 0.6 million.

28.5 Guarantees

As at 31 December 2016, there were outstanding bank guarantees of approximately Baht 54 million (2015: Baht 54 million) and the Company only of approximately Baht 24 million (2015: Baht 24 million) issued by the banks on behalf of the Company and its subsidiaries in respect of certain performance bonds as required in the normal course of business of the Company and the subsidiaries to guarantee electricity uses, among others.

Notes to consolidated financial statements

Hana Microelectronics Public Company Limited and its subsidiaries

For the year ended 31 December 2016

30. Financial instruments

30.1 Financial risk management

The Company's and its subsidiaries' financial instruments, as defined under Thai Accounting Standard No. 107 "Financial Instruments: Disclosure and Presentations", principally comprise cash and cash equivalents, trade and other receivables, investments and trade and other payables. The financial risks associated with these financial instruments and how they are managed is described below.

Credit risk

The Company and its subsidiaries are exposed to credit risk primarily with respect to trade and other receivables. The Company and its subsidiaries manage the risk by adopting appropriate credit control policies and procedures and therefore do not expect to incur material financial losses. In addition, the Company and its subsidiaries do not have high concentrations of credit risk. The maximum exposure to credit risk is limited to the carrying amounts of receivables as stated in the statement of financial position.

Interest rate risk

The Company's and its subsidiaries' exposure to interest rate risk relates primarily to their cash at financial institutions and short-term investments. Most of their financial assets and liabilities bear floating interest rates, or fixed interest rates which are close to the market rate.

Significant financial assets and liabilities classified by type of interest rates are summarised in the table below, with those financial assets and liabilities that carry fixed interest rates further classified based on the maturity dates, or the re-pricing date if this occurs before the maturity date.

	Consolidated financial statements as at 31 December 2016					Effective interest rate (% p.a.)
	Fixed interest rate		Floating interest rate	Non-interest bearing	Total	
	Within 1 year	1 - 5 years				
	(Million Baht)

Hana Microelectronics Public Company Limited and its subsidiaries

For the year ended 31 December 2016

Foreign currency risk

The Company's and its subsidiaries' exposure to foreign currency risk arise mainly from trading transactions that are denominated in foreign currencies. The Company and its subsidiaries seek to reduce this risk by entering into forward exchange contracts when they consider appropriate. Generally, the forward contracts will mature within one year.

The balances of financial assets and liabilities denominated in foreign currencies as at 31 December 2016 and 2015 are summarised below.

Foreign currency	Financial assets as at 31 December		Financial liabilities as at 31 December		Average exchange rate as at 31 December	
	2016	2015	2016	2015	2016	2015
	(Million)	(Million)	(Million)	(Million)	(Baht per foreign currency unit)	
China Yuan	304	240	78	69	5.1498	5.5458
US Dollar	200	208	50	32	35.8307	36.0886

62.40	25 April 2016	6.477

29.2 Fair value of financial instruments

The estimated fair value of financial instruments, in comparison with the related amount carried in the statement of financial position, is as follows:

(Unit: Million Baht)

	Consolidated financial statements			
	As at 31 December 2016		As at 31 December 2015	
	Carrying amount	Fair value	Carrying amount	Fair value
Financial assets				
Cash and cash equivalents	6,348	6,348	5,427	5,427
Short-term investments	3,177	3,293	3,413	3,357
Trade and other receivables	3,561	3,561	3,318	3,318
Long-term fixed deposits with financial institution	313	313	337	337
Financial liabilities				
Trade and other payables	2,813	2,813	2,413	2,413

Notes to consolidated financial statements

Hana Microelectronics Public Company Limited and its subsidiaries

For the year ended 31 December 2016

(Unit: Million Baht)

	Separate financial statements			
	As at 31 December 2016		As at 31 December 2015	
	Carrying amount	Fair value	Carrying amount	Fair value
Financial assets				
Cash and cash equivalents	964	964	956	956
Trade and other receivables	1,318	1,318	1,409	1,409
Financial liabilities				
Trade and other payables	1,112	1,112	1,280	1,280

The estimated fair value of the derivatives is as follows:

(Unit: Million Baht)

	Consolidated financial statements	
	As at 31 December 2016	As at 31 December 2015
	Fair value	Fair value
	loss	loss
Derivatives		
Forward exchange contracts	(63.0)	(263.2)

The methods and assumptions used by the Company in estimating the fair value of financial instruments are as follows:

- For financial assets and liabilities which have short-term maturity, including cash and cash equivalents, accounts receivable and accounts payable, their carrying amounts in the statement of financial position approximate their fair value.
- For debts and equity securities, their fair value is generally derived from quoted market prices, or based on generally accepted pricing models when no market price is available.
- For fixed deposit with financial institution carrying interest approximate to the market rate, their carrying amounts in the statement of financial position approximate their fair value.
- For derivatives, their fair value has been determined by using a discounted future cash flow model and a valuation model technique. Most of the inputs used for the valuation are observable in the relevant market, such as spot rates of foreign currencies, yield curves of the respective currencies and interest rate yield curves. The subsidiaries had considered to counterparty credit risk when determining the fair value of derivatives

During the current period, there were no transfers within the fair value hierarchy.

31. Capital management

The primary objective of the Company's capital management is to ensure that it has appropriate capital structure in order to support its business and maximise shareholder value. As at 31 December 2016, the Group's debt-to-equity ratio was 0.19:1 (2015: 0.19:1) and the Company's was 0.16:1 (2015: 0.20:1).

Notes to consolidated financial statements

Hana Microelectronics Public Company Limited and its subsidiaries

For the year ended 31 December 2016

32. Event after the reporting period

On 23 February 2017, the meeting of the Board of Directors of the Company No. 1/2017 passed the resolution approving the final dividend payment for the year 2016 to the Company's shareholders at Baht 1 per share. The dividend will be paid to the shareholders on 12 May 2017.

The dividend payment will later be proposed for approval in the Annual General Meeting of the Company's shareholders.

33. Reclassification

The Company reclassified the following amounts in the consolidated financial statements for the year ended 31 December 2015 to conform with current year's classification as follows:

(Unit: Baht)

	Consolidated financial statements	
	As at 31 December 2015	
	As reclassified	As previously reported
Cash and cash equivalents	5,426,494,103	6,104,135,405
Short-term investments	3,357,198,437	3,016,908,149
Long-term fixed deposits with financial institution	337,351,014	-

The reclassifications had no effect to previously reported profit or shareholders' equity and had no effect to the statement of financial position as at 1 January 2015, thus no reporting of the statement financial position as at 1 January 2015 is presented.

34. Approval of financial statements

These financial statements were authorised for issue by the Company's Board of Directors on 23 February 2017.
