14 October 2011

**Subject: Hana Ayutthaya Hi-Tech Flood update 10.00am Friday, 14<sup>th</sup> October 2011**

**To: Chairman of the Board  
The Stock Exchange of Thailand**

It is with regret that I have to report that finally after enormous attempts to hold back the rising water levels, the dam walls have been breached and the industrial estate is taking in water.

Currently the water level is approaching Hana's factory and we expect it will cover the first floor within today.

We have put in measures to resist water entering into key production areas on the first floor. The success of these measures will depend on their effectiveness, the maximum height that the water reaches and how long the water levels remain on the site.

Hana carries both property and business interruption insurance. Further updates will be announced as events occur.

Sincerely your,

(Mr. Richard David Han)  
Director
