28 February 2012

**Subject: Clarification of HANA's Operating Result Year 2011**  
**To: Chairman of the Board**  
**The Stock Exchange of Thailand**

Year 2011, Hana Microelectronics Public Company Limited "HANA" recorded net earnings of Baht 1,618.069 million compared to Baht 2,749.421 million of last year. The decrease of Baht 1,131.352 million was due primarily to the severe flooding that affected our subsidiary Hana Semiconductor (Ayutthaya) Co., Ltd. in the fourth quarter. In addition a stronger Thai baht exchange by 4%, higher material expenses and wages contributed to the decrease.
